Marion Bootleggers Told to Close Doors

Deputy Sheriff Advises Bar Owners To Go Out of Business; Attacks Raiders' Methods.

Herrin, Ill., Jan. 11—Efforts to reconcile differences growing out of liquor raids and the calling of state troops to Williamson county were reported at a standstill today following conferences last night. Sheriff George Galligan in a statement declared that withdrawal of the troops would be requested today.

A peace meeting called last night in Marion brought no results. At a subsequent meeting in Herrin in which eighty-three victims of the liquor raids were present, Deputy Sheriff Layman advised owners of bars to dismantle them immediately or suffer arrest and attacked the measures adopted by S. G. Young and his raiders.

GUNMEN MUST GO.

"Glenn and his gunmen must go" was the ultimatum delivered by Sheriff Galligan, while Young and leaders of the Klan say they are as determined to continue the raids.

Sheriff Galligan declared members of the Klan admitted at the "peace conference" that Glenn had "overstepped himself."

"One side must give way or a clash is inevitable," the sheriff declared.

MAYOR IS FORGOTTEN.

BY ROWLAND WOOD
(Copyright 1924)

Philadelphia, Jan. 11—Introducing the man behind the man behind the ax—Freeland Kendrick.

Who is Freeland Kendrick?

Oh, he's only the new mayor of Philadelphia, the man who picked Butler to clean up the City of Brotherly Love, and who went down to Washington and persuaded President Coolidge to grant Butler a year's leave of absence from his command of the Marine station at Quantico in order that he might undertake the herculean task.

GAVE NO PLUMS.

The writer has asked a lot of intelligent Philadelphians what they thought of Freeland Kendrick. The sharpest criticism heard was that Kendrick didn't reward all the political leaders who thought they should be rewarded.

For the rest, they agree that he is an exemplary citizen, a thirty third degree Mason, a past potentate of the Shriners of North America, present potentate of the famous Lulu Shrine of Philadelphia, a confirmed "joiner" of organizations, fraternal and civic, and a devoted husband.

Politically ambitious? Yes. Crooked? No.

Can he and Butler permanently clear Philadelphia of vice? Time alone will tell. But a darkened tenderloin and an outbound stream of shady characters perhaps suggests the answer.

HEAR SECOND SUB MEETS DISASTER

British L-24 Lost; K-12 Reported Sunk.

London, Jan. 11—(AP)—The British submarine L-24 rammed by the dreadnaught Resolution yesterday, is lying thirty fathoms deep about eleven miles south of Portland Bill, according to the latest reports. There is nothing to indicate that her crew of forty-three have not perished.

Until further investigation has been made it is impossible to tell just how the disaster occurred. However, the latest report says that the L-24 rose beneath the dreadnaught and struck the latter's bows.

NOT ABANDONED.

Hope of the crew's safety has not been entirely abandoned but most experts think it will be miraculous if the men are rescued.

An unconfirmed report says that the submarine K-12, badly damaged in a collision with the K-2 near the scene of the L-24 disaster, has sunk in shallow water.

Want Crater of Extinct Volcano For Sport Bowl

Honolulu. — (AP) — Punchbowl, the large extinct crater of one of the volcanoes that formed the island of Oahu and which once was used as a hill of sacrifice by the Hawaiian people, will become one of the largest athletic stadiums in the world if the plans of Major William Hoopai, athletic officer of the Hawaiian National Guard, are consummated.

The stadium would be almost in the center of the city and would have a seating capacity of 95,000, as large as the present population of the city. Prison laborers have started clearing klawe and other brush from the sides of the crater and inside the bowl. Improvements also have been started to the one road leading to the top of the crater and efforts will be made to obtain municipal cooperation for the construction of another road.

PERFECT AMPHITHEATRE.

Punchbowl, which towers 500 feet above sea level, forms a perfect amphitheatre and, in the opinion of Major Hoopai, could be transformed into a modern stadium at small cost. It is now owned by the government and is used for a rifle range for the National Guard of Hawaii. Its peak is the scene of the annual Easter sunrise service, which is held before a giant cross.

The last human sacrifice believed to have taken place on Punchbowl is shrouded in mystery, but tradition says that King Kamehameha IV, a heavy drinker, struck his only child during a drinking bout. The child received injuries which caused his death. Kamehameha planned an expiation of his crime.

NIGHT OF MYSTERY.

A decree was issued ordering all inhabitants of Honolulu to remain inside their houses that night. What transpired is unknown, but tradition continues that a fire burned that night on the high rock where the sacrificial pit was situated. A heavy smoke fell and wavered around it, according to the stories of persons who disobeyed the king's order and watched the fire from afar.

An old Hawaiian, questioned regarding this incident, said that nobody was known to have been missing in Honolulu after this evening, but that any drunken sailor might have disappeared easily in the darkness and that such a man never would be missed. In 1809 a chief who was captured as an enemy of Kamehameha the Great was known to have been burned at the stake on Punchbowl.

OF HUGE SIZE.

The crater rim measures 1,930 feet across from east to west and 1,700 feet across from north to south. The slope from the rim to the bottom of the crater is estimated at approximately 15 degrees. The floor of the bowl is about 200 feet below the rim.

High Klan officials could not be reached but according to the Journal, confirmation of the report came from persons closely identified with Dr Evans. It was stated that the action was concurred in and agreeable to the grand dragons of the Klan, and was not ordered independently by the imperial officers.

The Journal declared that the two were expelled, it was said, at a conference of imperial officers in Washington. Reports reaching Atlanta, the Journal stated, were that Klan headquarters have been moved to Washington.

CONSIDER TAX BEFORE BONUS

Committee to Report Mellon Plan on or Before Feb. 11.

Washington, Jan. 11.—Instructions have been given the house ways and means committee to report the tax bill on or before Feb. 11. After that it is to take up soldiers' bonus legislation to determine if an adjusted compensation bill should be reported.

This program was decided on last night at a conference of house Republicans who refused however, to pledge themselves to the passage of this session of either tax or bonus legislation.

CHECKED BONUS.

Representative Longworth, Republican leader, with others who believed taxation should have right of way, checked the faction advocating bonus at every turn.

At the outset Mr. Longworth proposed that the ways and means committee be instructed to continue consideration of the tax bill to the exclusion of all other general legislative propositions" with a view to making a report by Feb. 11 after which it should proceed to consider bonus legislation.

Two amendments were rejected.

REJECTED, 100 TO 87.

A stipulation that a bonus bill be reported "as soon as possible" was rejected 100 to 87. The other amendment fixed February 23 as the latest date for a report on bonus legislation. It lost 109 to 87.

The Longworth resolution then was adopted but the soldier bloc made one more effort to insure favorable action on the bonus. It was proposed that the conference record itself in favor of enactment at this session of both a "reasonable" tax reduction bill and a bonus measure. This proposal was tabled 97 to 94.

Members of the former service men's group declared they would take their fight to the floor of the house.

POLICE ON GUARD AS UNIONS VOTE

Chicago Chief Takes Steps to Avert Open War.

BY J. P. YODER.
(Copyright 1924)

Chicago, Jan. 11.—It's unsafe to belong to a labor union in Chicago and, if you work at a trade, it is unsafe not to.

That is the way it appears to Chief of Detectives Michael Hughes, who, after a killing early this week as a result of a feud between rival faction leaders in a teamsters' union election, ordered uniformed men stationed at the doors of all union meetings until the annual elections occurring at this time of the year are over.

Control of certain unions by men who do not work at the trade represented, and perhaps never worked at it, is behind these killings, said Chief Collins today.

MAJORITY ARE EXCELLENT.

"The rank and file of the unions here is composed of good, hard-working, law-abiding men," he declared. "They are first intimidated into joining a union and then they are forced to vote for the hardest and toughest of two or more factions. Why national labor officials have not taken steps to clean up the terrible conditions here is a puzzle."

A factor in the latest outbreak was the election of Frank Buchanan, former congressman, as business agent of the Teamsters' Union. Buchanan had no part in the shooting, although he was held in custody for a short time together with about twenty others. If he was ever a teamster, Chief Hughes said, he had not worked at it for many, many years.

EATS HEARTILY CREDITS PEPGEN

I was in agony one day when I learned about Pepgen relieving people of stomach trouble I tried it and I now desire to state that Pepgen stopped my misery

Thus spoke Mrs Rose Smith 619 W Harletta Street this city

For months before I took Pepgen I was subject to attacks of acute indigestion that nearly drew me double with pain It made no difference what I ate or how little I ate Sometimes the gas formed by fermenting foods was so great that it pressed up against my heart and I could hardly get my breath

As a result of stomach trouble my entire system broke down and I became nervous I felt tired and worn out most of the time I couldn't sleep soundly When I went to bed I would lie awake for hours

"After finishing my first bottle of Pepgen my nerves were so much better that when I went to bed I could go right to sleep The soreness around my heart has entirely left

"I give this testimonial in a thoroughly conscientious manner without payment of any kind. My object in doing so is to encourage the sale of a medicine which I believe will relieve every person who tries it I have the evidence of my own case and I also know of several of my neighbors who were relieved by Pepgen"

Pepgen has relieved hundreds of Decatur People of gas on the stomach, heartburn bloated feelings sour stomach, sick headaches nervousness pains in the back and habitual constipation Why not you?

Pepgen is sold in Decatur only at the Decatur Drug Co It may also be obtained at one leading drug store in every nearby town which may be known by a Pepgen sign

GLEE CLUB TO CHICAGO FEB. 18

Millikin Rehearses for Big Contest.

FOURTEEN ENTRIES

Main Song Competition on "Morning Prayer."

Work is progressing rapidly in the rehearsals of the Millikin University Glee Club for the central western Intercollegiate Glee Club Concert at Chicago Feb. 18.

The prize song to be worked on this year by all of the clubs entering the contest is the "Morning Prayer." It will be remembered that the selection last year was "The Hunter's Farewell." Last year the clubs each sang their school loyalty song and another number as well. This system will be followed again this year by the fourteen Universities entered. Millikin University Glee Club made a splendid record at the contest in Chicago and hopes to repeat this year, and if possible return with first prizes.

THOSE ENTERED.

The schools entered in the contest this year, which is to be held at Orchestra Hall Chicago, 8:20, Feb. 18, are as follows: Chicago, University of Illinois, University of Iowa, University of Michigan, Purdue, University of Wisconsin, Armour Tech, Beloit, Grinnel, Knox, James Millikin, Lake Forrest and Wabash. With the fourteen schools entered there will be 250 singers. The purpose of the contest, as last year, is to select the best College Glee Club in the middle west. Competition this year is keen and the result will be that those who attend the Chicago contest will hear some of the best singing by College men in the country.

COMMERCE CLUB.

The regular meeting of the Commerce Club of J. M. U. was postponed this week because of the fact that Attorney C. C. LeForgee who was to have talked to the members of the club was called to Chicago. Mr. Haas of the Hass furniture Company will speak before the Forum the first Wednesday in February. The club has undertaken a number of changes in their department, including the securing of a seminar and a practice room for accounting. The room at the University now used as a commerce Seminar will be enlarged, relighted, and re-equipped for the study of specimens of research and industry. The room was formerly used by the surveying department.

In the reorganization of the Commerce Club there is a cabinet composed of three seniors, Verrie Rogers, Harrold Barth and Dean Clark; two juniors, Wilbur Aboll and Jack Gibson and one Sophomore, Charles Field. The membership of the club is limited to Seniors, Juniors and a few Sophomores and membership is given on the interest shown in the department. The new organization is headed by Dean Clark as chairman and it has taken over all of the meetings of the organization formerly known as 'Forum.'

REHEARING IN PAN AMERICAN CASE

Motor Company Sued for Cancelled Order.

Until a copy of the report of the decision of the appellate court in the case of the Herschel-Spillman company vs. the Pan American company is received no one can tell the reasons of that court for reversing and remanding the case with instructions. The appeal was taken by the Herschel-Spillman company from the decision of the master in chancery, who allowed the complainant company only $10 damages. The company sued for $40,000, representing hundreds of motors that the Pan-American company had ordered and had not accepted.

The complaining company submitted its records showing that it had in other years made a net profit on each motor sold of the type ordered by the Decatur company. In behalf of the receiver of the latter company an expert accountant checked the records of the company and this disclosed that at one time the complaining company had made a clear profit of $50 on each motor of that type sold.

The report of the accountant also is said to have shown that for many months before the suit was filed the Herschel-Spillman company had been operated at a loss because of many orders cancelled. The Pan-American order had not been cancelled, but acceptance had been deferred. The reports of the accountants covered between 400 and 500 pages, representing a great mass of figures.

NO DAMAGES.

In the case of F. W. Lincoln vs. the Pan-American company, the appellate court sustained the lower court, holding that Mr. Lincoln was not entitled to anything. He sued for $45,000. He had a contract for the exporting rights of Pan-American automobiles. When the company quit business he had nothing to export. He claimed he had been damaged, but the courts held otherwise.

COMMUNITY CHEST OFFICE STILL OPEN

Many Have Not Yet Subscribed.

Headquarters for the Community Chest drive are still open and the meeting held on Wednesday night does not mean that the drive is over. The contrary is true, for not enough money has been raised to maintain the various organizations and there will be no giving up until a sufficient amount has been raised.

About 100 men of the 300 who took the cards have made their report which means that there remain in Decatur a great many people who have not subscribed to the Chest. As soon as the reorganization work for the year is completed the drive will go forward and in the meantime subscriptions at the headquarters in the Y. M. C. A. will be received gladly.

J. A. SIMS TAKES HIS OWN LIFE

Organized Fairlawn Cemetery Association.

J. A. Sims, who with his brother, C. B. Sims, organized the Fairlawn Cemetery association in Decatur in 1913, committed suicide in Huntington, W. Va., Thursday morning, according to a message received Thursday night, by drinking a solution of cyanide of potassium. His home is in Savannah, Ga., where he has a wife and four children. Mrs. Sims stated that Mr. Sims had been in a depressed state of mind for some time, due to ill health, he not having fully recovered from an attack of typhoid fever. That was the only motive she could assign for the act.

According to the message, Mr. Sims went to a drug store and purchased a pint can of cyanide of potassium, taking it to his room in the most fashionable club in Huntington. He put a small quantity in a bottle and placing it in his pocket went to the club room. There he played cards until midnight. After the game he went to a writing table and wrote two notes that were later found in his pocket. One note was to his life insurance company and the other to an undertaker directing what should be done with his body.

AT UNDERTAKER'S HOME.

Then Mr. Sims ordered a taxi and was driven to the home of an undertaker. Sending the chauffeur to call the undertaker, Mr. Sims drained the contents of the bottle and was dead when the undertaker came out.

Mr. Sims came to Decatur from St. Louis in 1913 and organized the Fairlawn cemetery association. Though here less than two years, he became acquainted with a great many persons and made many friends. He was a member of Macon lodge No. 8, A. F. and A. M., Macon chapter No. 31, R. A. M., Decatur Council No 16, R. and S. M., Beaumanoir commandory No. 6, Knights Templar, all of Decatur, and was also a member of the Scottish Rite Masons and the Mystic Shrine in Springfield.

He is said to be a member of a wealthy and prominent family in Savannah, Ga. The body was sent to Savannah for burial Friday.

THE SHOT IN THE NIGHT

BEGIN HERE TODAY.

The writer of this story, seeking nocturnal adventure, walks toward London from Woolwich. He stops to rest in front of a long, low house of interesting architecture with front covered with white stucco. Tall French windows lead into the garden. In one of the French windows there burned a light.

A revolver shot is heard. The writer lifts the latch of the gate and tiptoes up the walk to peer into the lighted window. He sees a man seated in a desk chair. He steps into the room and finds the man dead. A door opening into a dressing-room is ajar and from that room comes the sound of sobbing.

NOW GO ON WITH THE STORY.

There was a big armchair covered with crackling chintz, heavily flowered in blue. Upon it, or rather upon her knees on the floor and thrown face down upon the armchair, lay a woman, whose shoulders convulsively heaved as she wept. Evidently she had just risen from her bed, for over her dressing-gown of green silk, unbound curly red hair flowed in heavy waves. I watched her for a moment, for there was something abject in her attitude. Her arms were outstretched across the chair; she made no attempt to wipe her tears. I had a queer feeling that she wept as if she were bleeding to death. Her plump, pretty white arms came out of the green silk sleeves. I was just about to go to her, when I perceived in one of her hands a revolver firmly grasped.....

She'd killed him! That woman! It was she who had fired the shot. Obviously it was her husband whom she'd.....

Swiftly, the domestic tragedy took form. A maddened woman, killing, one didn't know why, the man who had spent a lonely night in the room beyond. But the tears interfered with the logical continuity of my thoughts. Murderess or not, she was crying, and crying so that my heart went soft with sympathy. I went up to her, laid a comforting hand upon a shoulder that heaved.

I expected her to start up with a scream, but I had forgotten how much she must need the comfort of human contact, or, instead, she suddenly raised her head, gripping my hand. Looking up at me with a stained, blotched face, she murmured: "For God's sake, don't leave me." She rested her cheek against my hand. Her sobs were louder now.

"Of course I won't leave you," I said, in a comforting tone.

"Oh, don't leave me," she said again.

"Now, try and pull yourself together," I remarked. "It's no use crying." At this her sobs increased so as to become almost screams; I realized what a foolish thing I had said. I did not know what to do. I couldn't stay indefinitely to be discovered by the servants perhaps. So I used a heroic remedy. Freeing my hand by a violent effort, I seized her by the shoulders and forced her to her feet, shaking her vigorously two or three times. She gave me a moan, a gasp, and suddenly her tears stopped. She was staring at me with open eyes, her mouth still convulsed, but silent.

"Now," I said, "quick. You've no time to waste. What happened?"

She seemed to find speech difficult, but she tried: "I can't tell you....."

"Oh, nonsense!" I spoke harshly on purpose. "It's no use trying to hide. I've just been through that room and I found your husband, at least I suppose it's your husband.... Don't begin crying again," I said angrily, as her mouth opened. "It's your only chance. Tell me what happened. You shot him, didn't you?"

"Yes," I caught the whisper.

"Well, now, what's to be done?"

She was rapidly becoming composed: "There's nothing to be done except send for the police."

"I suppose I ought to," I said. "But I don't want to if I can help it. Oh, whatever made you do this?"

She was not listening to me, for she replied: "Is he dead?"

"Yes, he's dead," I told her. "I looked. But, by the way, you haven't asked me what I'm doing here." She shrugged her shoulders. "Yes. I agree with you; it doesn't matter. I was passing outside; I heard a shot, and I came in."

"Well, you'd better send for the police."

"Why should I?" I looked at her more carefully. Instinctively, she had wiped her face; no doubt it was her beauty which inclined me to mercy. I realized that when all was well with her, this woman would show most beautiful features. The rough, ruddy hair hung in tangled locks, as if it had been raveled out of its plaits, for a green bow hung at the end of a strand of hair. It grew low upon the white brow, where it made seven beautiful points of bright bronze. Under gleaming golden eyebrows, large green eyes were looking at me piteously, and a very red mouth trembled. "Look here," I said. "Suppose I'd passed your house five minutes later, I shouldn't have heard. I shouldn't have come in. Then you could have escaped. Now, look here, get your clothes on, and go as quick as you can; otherwise you're sure to be caught. You'll go to prison for years. Get your clothes on quick. By the time you're ready I'll be gone."

She seized my arm with her free hand, having evidently forgotten the revolver in the other: "Don't go," she whispered. Then, tensely: "If you go, I'll shoot myself, too."

"But.....but," I said, vaguely.

"Don't go. Yes, I killed him. I don't care. I couldn't help it. I had to. It couldn't go on. I couldn't stand it," she said on a louder note, which made me fear renewed hysterics. But suddenly she grew calm: "I don't know who you are, and I don't care. I don't care about anything. I don't care if they hang me .....I wish they would."

"Of course they won't hang you."

"Listen. Let me tell you. I want to tell you. I suppose you think I'm horrible because I'm a murderess. I couldn't help it." She released my arm and sat down heavily in the armchair, as if her energy deserted her, but all through her story her voice was now audible, though monotonous.

"The man you've just seen, who's dead in there, was my husband. We've been married for seven years. When we married I was seventeen, and he was forty-five. I didn't want to marry him. I.....I wanted to marry somebody else.....my boy Dick. My mother, well, she didn't like Dick. You see, we were what is called nice people, and Dick was third mate on a ship in the merchant service. Mother said he wasn't ..... the right class for me. They wouldn't let me marry him. He was only twenty-one, and he wasn't earning much. Oh, I was bad, bad."

She stopped, and I said: "How do you mean, bad?"

"Oh, I ought to have stuck to him. I promised him, I told him I'd wait. But they wanted me to marry..... the man I married. He was rich, very rich, and we were so poor. Oh, I ought to have stuck to him, my boy Dick.....but they were too strong for me. I couldn't. I was only seventeen. Oh, you do understand, don't you? I couldn't. They were too strong."

"Yes," I said. "I understand. Go on."

"Well," she went on, "I married him. I couldn't help it. Seven years ago. He wasn't unkind to me at first. He said he loved me, and I suppose he did. And I tried to love him, too. I did my best; I swear to you I did my best. But I couldn't. I was always thinking of my boy Dick, far away, and the dreadful letter he wrote me when he heard that I'd married. He was right, but it hurt me dreadfully. For a year or two things went well enough. I was very wretched, but I didn't show it. And my husband, he seemed pleased. But one day, I don't know how, he found out about Dick. I don't see why he minded. I'd married him; that ought to have been enough for him. I was a good wife to him: I swear to you I was. But he got jealous. Jealous of my poor boy Dick, so far away, whom I hadn't even seen since I married. My husband began to talk to me about Dick. Well, I tried to say it was just a boy and girl affair, but my husband understood. He couldn't help seeing that I didn't love him. He thought it was Dick's fault, and so it was in a way. He began to hate him. He was jealous of him, just because I loved him. He hated Dick, and he hated me. Oh, you don't know what it's like. I hope you'll never know. To live with somebody who's got a grudge against you, and who's trying to make you suffer, trying all the time. I don't know how he did it, but, you see he was a rich man. My husband began to take an interest in shipping. He bought shares in ships, and opened an office. And he made a lot of money, for he was clever. Oh, I couldn't bear it."

NO DOUBT IT WAS HER BEAUTY WHICH INCLINED ME TO MERCY.

"But how do you mean," I said, "I don't quite understand."

"He began to follow the movements of Dick's ship. It was quite easy. He used to come in in the evening, and say: 'The Cheronia has been sighted off Sandy Hook. Would you like to send Dick a wireless, darling?' I didn't say anything, but it hurt. Or again, he told me when Dick was promoted to second mate. He found out; he told me. I don't know; he must have made spying a business. He told me how much Dick was getting per month. He even invented stories about Dick and other women, month after month, year after year. Almost every day, he had something to tell me. I gritted my teeth together, tried not to burst out, but it was too much. My husband was using Dick as a taunt phrase. Instead of saying: "I forgot my umbrella today, how careless," he'd say: "I'm just as careless as Dick." And, in a restaurant, he asked me whether I'd like pudding a la Dick. But I didn't get used to it; for it only got worse and worse. Year after year. I was going mad with it; perhaps I am mad. But it didn't stop my heart bleeding; perhaps I could have stuck it out, however.....perhaps he'd have got tired of it. For my husband loved me, you know, in his way; indeed, it was always after I'd cried, when I lay weak and sick with hysterics, that he'd take me in his arms and cover me with kisses which I hadn't the strength to resist.

AMERICAN HEIRESS MARRIES COUNT

New York, Jan. 11.—Society learned from the newspapers today that Millicent Rogers, twenty year old heiress to the estate of Colonel and Mrs. Henry Huddleston Rogers, had been married at the Municipal building Tuesday to Count Ludwig Salmvon Hoogstraten of Austria, twice her age, who served his country in the World war.

Colonel Rogers was left an estate of $40,000,000 by his father.

Miss Rogers in 1920 announced her engagement to J. W. Thompson, a boyhood friend. That was broken by mutual consent.

The count is described as tall and handsome and as appearing much younger. He was married in 1908 to the Baroness Frankenthal but was divorced in 1912.

HOLD POLICEMAN WHO KILLED GIRL

Chicago, Jan. 11.—John P. Mulcahy, a policeman, who shot and killed Jennie Piarski, also known as Jennie Piarr, a checkroom girl in a cafe, during a New Year's party, was recommended held to the grand jury on a charge of involuntary manslaughter by a coroner's jury, which Thursday conducted a second inquest over the girl's body.

BUT THEY ARE NOT TERRIBLE.

Mark Sullivan thinks that those in this country who favor any sort of world peace plan are working at a disadvantage. The reason is that in this matter "irreconcilables" in the U. S. senate are the kind of warriors who go to it without rules.

When they reach this question these irreconcilables are cave-men in the quality and tactics of their fighting. They kick, bite, gouge, and poison wells—they pass up submarines as trifling affairs.

Yes, that is one way to tell it, and maybe it makes a fair enough story. It may be admitted that some irreconcilable senators are always ready to fight in that fashion, provided they can get away with it.

But we need not imagine they are a terrible lot; the chances are they are much like other people mixed in these times. They are berserks as long as they can get votes with that role, but they will have no difficulty to tune in with peace as soon as they learn the votes are the other way.

This matter is really up to voters of the country. If a majority will say they want something done to forward world peace, they will be permitted to have their way.

It is even suspected the prowess of the irreconcilables is partly due to the unwillingness of peace advocates to go to the polls and vote their convictions.

Some of these have a notion they can cure the world by simply thinking peace. Absent treatment may work in some lines, but not in politics.

TRYING IT ON MEXICO.

Incidentally, it appears we are trying a peace program on Mexico. Down that way we are lending aid and encouragement to one set of fighters, the big idea being this is the short road to peace in this instance.

Our administration at Washington has looked the situation over and has decided that Obregon is in the right in Mexico. We send arms and munitions to him, 50 per cent cash in hand and the other 50 in thirty days. If they don't pay the deferred part, then we are "fifty-fifty" with Obregon.

But plainly it is a case of trying to stop a fight by making one side strong enough to lick the other. It may be that all this will pan out as planned.

Once it was suggested that something like this be tried on a wider scale. Thereupon other gentlemen in Washington threw a fit and haven't yet got back to normal bearings.

But they are reasonably patient and self-contained as they see the same thing tried on in a smaller way in Mexico. They may even come to like it.

THEY GOT A SMELL OF BLOOD.

Word has come from federal authorities and others that for the time being raids on bootleggers must cease in Williamson county. But this does not mean the end of the world, not even the falling of the sky.

Down in Williamson county they have worked themselves into a bad way, and those who are sober appear to be about as quick on the trigger as the crowd that fools with hooch.

If these sides are permitted to get at each other, there is danger they will wipe everything off the map in their husky bailiwick. It is thought necessary to call a halt in order to keep them away from civil war.

Some time since they had an ugly outbreak of serious fighting in Williamson county, at which time residents of the place seemed to be pretty much on one side. But then they got the smell of blood in their nostrils, and the stuff has proved a little too heady for them.

Many feared just this, and said up all the time of the former big outbreak in Williamson.

WE MUST GET A MOVE ON.

We learn from an address delivered by James Hamilton Lewis in Chicago that Massachusetts, in the matter of power and patronage, has not neglected to help itself plentifully.

Here is the way it has treated itself in the first helping: It now has the president, the leader of the senate, chairman of foreign relations committee in the senate, speaker of the house of representatives, and about five of the largest other assignments in the personnel of government.

One should not waste time trying to find fault with Massachusetts because it has helped itself in this fashion. A better plan of action is to urge leaders in Illinois to get into the going and show they have a few fancy steps and a lot of speed.

Of course Illinois can't hold any of these places while they are in possession of men from Massachusetts, but this only means our fellows must not get bashful and hesitate about ousting the Massachusetts man when he has more than his share.

One may even admit that Massachusetts makes this showing because of the quality of men it puts to the front and then keeps them there. But this is something at which Illinois may also play. Just now we may not be built to shine at this game, but if alterations are needed it is time to get started on them.

Now that we are getting so many hard roads in Illinois, our own statesmen might grab some of the spirit of the time and get farther in a day's run.

WE CAN WISH HIM WELL.

Chicago has a new head for its schools; it went all the way to New York to get him, and it will pay him $15,000 a year. His name is William McAndrew.

There is some promise that this man will succeed, at least for a time, on this tremendous job. He was selected without any interference from the political powers and pulls in Chicago, a good and unusual omen.

Once they had this same McAndrew as principal of a high school in Chicago. At that time they threw him out the back door because he would not take outrageous dictation from a politician who didn't know anything about schools. He is coming back in some triumph.

But one isn't sure that congratulations to McAndrew are in order. What will they be trying to do to him after three years? He is all right, but they are darned uncertain—a shaky combination.

The railroads took twelve carloads of spinach through town in a day, and next we may expect to hear about a shortage in the market.

We are pleased and comforted to note that our city council is working in such harmony with our board of local improvements.

Mr. Meneely will build that road to Pana next year if he has to bring up a fourth reserve outfit and enjoin the weather man.

The chances are that Frank Peers needs the money, but in the Hill fine they beat him to that first thousand dollars.

There was no contest in the A. of C. election, and yet the vote was the largest ever polled. This looks like taking interest.

Everybody who had a drag was out with it, and those who didn't have one were making inquiry about the price.

Somehow they have neglected to tell us where Governor Small is eating lunch while they have his chef in jail.

By now most of our summer tourists, people who vote here, have found their way to Florida and California.

We have people who won't read one peace plan, therefore it was up to the judges to read more than 22,000.

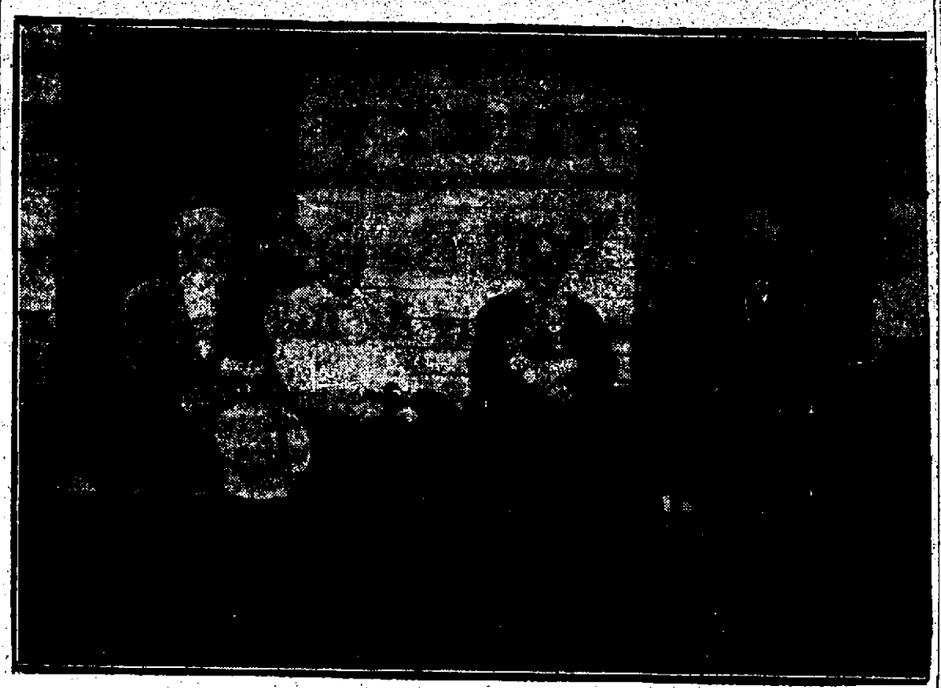

It doesn't help much to have longer days when the lights must be turned on at the noon hour.

Leroy is another town that is troubled with "frozen assets."

ABOUT TOWN

ATTORNEY JAMES T. WHITLEY'S nine year old son paid a fine tribute to The Review's "Story of Decatur," the other day. His father has been reading the daily instalments to the boy and he has enjoyed them greatly and has retained much of the information about Decatur and Macon county. He said: "Gee, Father, I wish that our school histories were written like that. They'd be so much more interesting."

MR. AND MRS. PEDDECORD AND MR. AND MRS. BURROWS

These four people saw Decatur's growth during a long period, in which growth they had their important part. Jasper Peddecord and Lowber Burrows established the first Decatur bank. This picture was taken by Mrs. Burrows' brother, J. Edward Bering, at the Burrows' farm in 1893.

The Story Of Decatur

By E. B. Hitchcock

CHAPTER 41.

DECATUR'S FIRST REAL BANK.

It Was a Natural Growth from Jasper Peddecord's General Store, and Mr. Peddecord Lived Here for Sixty-Three Years.

From 1836 to 1899, and from 1852 to 1910, cover a goodly portion of the existence of the city of Decatur. Yet those years were covered respectively by the residence here of Jasper J. Peddecord and Lowber Burrows, and those two names are indelibly linked with the growth and progress of Decatur and Macon County.

Jasper Peddecord came to Decatur about 1836, having been born near Rockville, Maryland, Nov. 8, 1815. He had worked on the home place as a boy, had gone to the country schools and had attended Rockville Academy. Then he went to Washington, D. C., where he was a clerk in a store for five years. He heard rumors of the great promise in the state of Illinois and in the new county of Macon, and at 21 he came here to make his fortune. And he did it.

LOG CABIN STORE.

After entering 160 acres of prairie land northwest of the village, Jasper Peddecord formed a partnership with Henry Prather. They were located first in a log cabin on the northwest corner of the old square, about where the Bachrach store now is. Later they had their general store in a building to the east of their original location, where the Morehouse & Wells store is now.

THE PARTNERS.

In 1849 Henry Prather retired from the partnership with considerably more capital than he put into it originally. Jasper Peddecord bought him out and ran the store alone for a time. Then Hosea Armstrong joined forces with him, but remained only a short while as he was one of Decatur's gold seekers in 1850. Two years later Lowber Burrows came from Philadelphia to take a position as clerk in this store. It was not long before he was a full-fledged partner, and the names of Peddecord and Burrows were henceforth associated together.

KEPT HIS LETTERS.

Mr. Peddecord never pretended to have much system about the keeping of his books. But he did keep copies of all his business letters. There was no carbon paper or letter press in those days, and Jasper Peddecord had to copy every letter with his own hand, after it was written, for his book.

Don't get the idea that Jasper Peddecord merely ran a general store. He was a shipping and commission agent to a degree, he loaded flat boats with meat and produce of Central Illinois farms for New Orleans and New York, and was sort of a banker for his customers and friends.

MEAT TO NEW YORK.

In his old letter record book there was a copy of a letter written by Jasper Peddecord to a New York house, in which he asked terms of credit and an advance on a shipment of several thousand pounds of meat from Decatur to New York, via New Orleans, explaining that the ice would go out of the Illinois river, opening communication with New Orleans by the Mississippi, in time for his shipment of meat. The usual method was to haul supplies to Naples, west of Springfield, by wagon, where flatboats were loaded for shipments down the Illinois to the Mississippi, thence to New Orleans where they were transferred to vessels plying between that port and New York.

BUSINESS GROWTH.

When Lowber Burrows came to Decatur he began a more elaborate system of books for the general store. Business had been growing as the population increased. Jasper Peddecord's method had been to scrawl a notation of credit extended to some customer of the store on a piece of paper, sticking it in a drawer until the farmer was ready to settle. But along about 1850 it was evident to him that more adequate methods would have to be adopted.

No one need get the idea that Jasper Peddecord's methods lost him any considerable sum of money, or that his system differed from others of that day. People must have been more honest back in pioneer times. At any rate they trusted each other to an astonishing extent, and seldom reported any losses.

TOO MUCH LOOSE CASH.

Another thing began to worry Jasper Peddecord. His customers had a way of bringing money to him for safekeeping. He put the actual cash in an envelope, or wrapped in a piece of paper, marked with the owner's name, and stowed it away in a drawer. Suddenly he awakened to the realization that he had several thousand dollars of other people's money in that drawer, and he became concerned. His young clerk, Lowber Burrows, had suggested that if he was going to run a bank he ought to have a safe.

So, Jasper Peddecord went to Philadelphia in 1852 and when he returned to Decatur he brought back

AT THE FIRESIDE.

Not riches nor the pomp of fame outlast
The splendor of a hearth-fire's happy glow,
Where fairy kings and princes come and go
And all the people of our storied past
Re-live their glad adventures, and the blast
Of winter is forgotten, and the snow
Melts in the sunshine which the blazes throw
And in the pictured shadows which they cast.
Who gives his children scenes like this to keep,
Shall be remembered when his gold is spent,
Though winds may blow and cruel storms may sweep,
They shall not rust or stain his monument;
Though never mentioned in the books of fame,
The home he loved shall treasure long his name.

Little Benny's Notebook

This afternoon I was setting on my frunt steps bouncing my tennis ball and catching it in one hand and then in the other hand and diffrent things like that, and Sid Hunts quiet little cuzzin Joe started to come down the street bouncing a golf ball, bouncing it away up to the 2nd story windows, me thinking, G. thats a regular sky bouncer, I wonder if he'll swap it for this tennis ball, I wonder.

And when Joe came up I sed, Hello Joe, I gess you wish you had a tennis ball insted of a golf ball, dont you?

No, Joe sed sitting down on the bottom step and starting to bounce the golf ball on the pavement, and I sed, Well, Im glad I got a tennis ball all rite, anybody that knows enything about tennis balls knows theyre the best and if you dont bleeve it ask enybody thats got one.

Side quiet little cuzzin Joe not saying enything, and I sed, Some fellows like golf balls, but thats because they dont know the diffrents. A golf ball is libel to slip out of your hand on account of being so little and unsignificant looking, and besides that its so hard its libel to brake a window and be took away from you if you don't lose it ferst on account of it being so hard to find. I know a lot of fellows that wouldnt take a golf ball for a gift, I sed.

Joe jest keeping on bouncing the golf ball without saying enything, and I sed, But I know ware I can get 2 more other tennis balls by jest asking for them, so I mite swap this one for a golf ball sometime, maybe, jest for curiosity. How long have you had that one? I sed.

I havent, Joe sed, and I sed, Wat? and he sed, It aint mine, its my cuzzin Sid's.

Me feeling diskusted and thinking, Aw heck, good nite. LEE PAPE.

Ten Years Ago Today in Decatur

JANUARY 11, 1914

Henry Ford, the auto manufacturer, had just announced that in the future, every man in his employe over twenty years of age should receive $5 a day. It was said Ford's income was $100 a minute.

Twenty horses had died in the vicinity of Bethany, due, it was believed, to eating corn stalks.

James H. Johnson and Samuel Amenda were added to the Decatur police force.

Telephone and telegraph companies had refused to pay the city pole tax.

TWENTY YEARS AGO TODAY

Plans were being made for a new electric line between Decatur and Springfield.

Miss Mollie Grubel's physical culture class had its first meeting and thirty young women were present. They had dancing, basketball and exercises.

A farmer brought five dozen eggs to town and with the money bought a ton of coal.

Rev. C. A. Birnbach, rector of St. John's Episcopal church, resigned to accept a position in northern Minnesota.

THE STORY OF DECATUR

By E. E. Hitchcock.

(Continued From Page 6)

with him a cumbersome iron safe and a huge key, the first safe ever brought to Macon county, and one of the first ever in Illinois.

BANK FOR 60 YEARS.

With this safe, railed in, in one corner of the store, began the first bank in Decatur, which was also one of the first banks in the state, and which continued as a permanent institution for nearly sixty years

Hence, Jasper J. Peddecord and Lowber Burrows established Decatur's first permanent bank in 1852 In 1857 William Martin, father of Mrs Jane M. Johns, was admitted to partnership, and the name was changed to Peddecord, Burrows & Co. Mr. Martin retired in 1859 and Peddecord & Burrows was the name again, which was unchanged until 1878 when William Boyd was admitted as a partner, the firm name again becoming Peddecord, Burrows & Co William Boyd died in 1889, but no change in name was made until 1899 when Jasper J Peddecord died. The business was then continued under the name of L Burrows & Company.

CHECKS.

Some time after 1852 it was discovered that a total of over $20,000 was "resting" in that safe The depositors were asked to allow the sums due them to be placed to their credit and a checking system was established

Including Lowber Burrows, these are remembered as clerks in the general store: Henry Hummell, Wesley Shull, John D Smith Levi Shores, Sandy Wilson and William Martin.

STORE IS SOLD

Along about 1855 the banking business had grown to such an extent that it was decided by the two partners to sell the general store They did it by closing out one department at a time, first boots and shoes, then dress goods, after that crockery, etc Miles & Ricketts finally purchased the store and its "good will"

In 1863 Jasper Peddecord and William Lintner had a pork packing plant at the William street crossing of the Illinois Central railroad, on the south side Then they began the manufacture of pumps there with W A Barnes, and later furniture. Peddecord & Burrows bought the factory, added to the buildings and Decatur had a new industrial thrill in the furniture factory.

MARRIED, BUILDS HOME

July 30, 1842, Jasper Peddecord and John S Adamson's widow were married. Mrs Adamson was Ophelia Oglesby, sister of Richard J Ogles by Five children were born to them: Woodford W, Isabella, Emeline W, Richard G and Valette O

It was after he became a banker that Jasper Peddecord built his substantial home at 226 North Franklin street displaced by a business block in 1912 That house was long one of the social centers of the town and many of Decatur's most distinguished visitors were entertained there. For many years that house stood to the east of Central park, surrounded with business buildings, dignified in its isolation

UNFORGETTABLE

Mrs. Peddecord died in 1897 and Jasper Peddecord died in 1899. But no one who ever had the privilege of knowing them will forget the gracious hospitality of Mrs. Peddecord and the dry humor and pleasant comradeship of Mr. Peddecord The back room of the Peddecord & Burrows bank was Decatur's first unorganized gentleman's club. There went the men of affairs and influence in the community to discuss business, politics and social happenings.

Jasper Peddecord had the gift of drawing people to him by the sincerity of his manner, and he held them as friends through the simple honesty of his nature and the charm of his personality.

(The story of Lowber Burrows and his life in Decatur will be told tomorrow.)

Millikin-D. H. S. Play On Foreign Floors

Roosevelt, Central and St. James Quintets Have Games Played in Decatur Tonight.

BY HOWARD V. MILLARD

Decatur's two major basketball teams, Millikin U and Decatur High are on the road this week end and the local fans will have to choose between watching the two Junior High fives and the St. James team play or go hungry for the cage sport.

Both Millikin and D. H. S. have tough contests this Friday evening, the blue and white squad meeting the Bradley Tech tossers at Peoria, while D. H. S. is at Alton. The Tech team gained a verdict over the fast Hillyard team of St. Joe Missouri during the holidays and since that machine finished second in the A. A. U. title last year and defeated Kansas U a few nights ago the Peorian's are expected to show plenty of class.

BIG CONTEST.

It is the first game in Peoria and the Bradley Gym will be packed to its capacity for Millikin has always been a big drawing card there while the great strides made by Bradley in athletics the past two years has the Tractor city fans on edge for all the red and white games.

The Bradley band, a curtain raiser and a dance on the gym floor after the contest are some of the added features tonight.

Coach Rollie Williams, manager Buddy Maxwell and ten players left at nine o'clock this morning for Peoria. They should arrive shortly after noon. Millikin, Bowman, Lindley and Douglas are listed for the forward berths, Walley and Anderson at center with Captain Arrington, Sweet, Forsyth and Bishop as the guards.

Williams put the men through a short scrimmage last night as the final drill for the contest.

PREPS LEAVE AT NOON.

Coach Crooks, manager Westlund and 11 D. H. S. tossers left at noon for Alton via Springfield where they are scheduled to meet Johnny Mac Whirter's team tonight.

It was thought that a game might be secured with Carlinville for Saturday night but since the team at that place has a hard game this evening the officials decided not to entertain the Crooks men. Unless a contest is secured near Alton or St. Louis no game will be played Saturday, the locals deciding not to accept the Shelbyville offer owing to railroad connections.

Coach Crooks decided to take 11 men on the trip instead of ten, the following being listed: Captain Perry, Mitchell, Sattley, Jones, Lowery, Lanum, Trisch, Earl, Robbins, Logan and McGowan.

ON THE LOCAL FLOORS.

Three games are carded for the local floors this evening. The Niantic High five is to perform at Roosevelt while Ernie Calbert and his Central boys have the Monticello Junior High five as a foe. This game is to be played at the Decatur High gymnasium and will be called at 7:30 o'clock.

The other game, while not a school affair, should be an interesting one and will see the St. James quintet meeting the strong Monticello Community Club five on the St. James floor.

FIRST BLOCK WON BY WILLIE HOPPE

Takes Early Lead in Match with Cochran.

Boston, Jan. 11 — Willie Hoppe, world's champion 18.2 balkline billiard player, won the first block of his 1,500 point three night match with Welker Cochran, challenger, Thursday night, 500 to 376. Cochran, playing brilliantly at time, failed as conspicuously at others having a total of six blank innings.

Hoppe went out with an unfinished run of 43 in the 19th inning. Throughout he played consistently good billiards, although only one of his runs, in which he tallied 109 points, approached Cochran's high run of 142.

The champion took the lead in the opening inning when he ran 90 against 6 for the young Pacific coast star. He was never overtaken.

Cochran, playing his best, ran 142 in the eleventh inning and cut Hoppe's lead to 32 points. But from the fifteenth inning to the end, Hoppe set a pace which Cochran was unable to follow.

The score by innings:

High runs and averages:

Cochran—6, 34, 12, 0, 0, 17, 0, 1, 2, 142, 0, 0, 2, 85, 45, 3, 4, 28—376. High run, 142; average, 19 15-19.

Hoppe — 50, 0, 14, 7, 48, 0, 10, 75, 0, 2, 83, 0, 1, 109, 5, 3, 10, 43—500. High run, 109; average 26 6-19.

SPRINGFIELD READY FOR CLINTON GAME

Springfield, Ill., Jan. 11—As Clinton looms as the next Red and Black opponent on the basketball court, Coach Baird has been sending his charges through some rather fast paces and remedying any defects in the team's play. The regulars are showing marked improvement in their teamwork and in defensive play and encouraged by the victory last week on the Jacksonville floor in their first out of town game they are expected to return with the largest end of the score.

No change is expected in the initial lineup. This means that Schnepp and Greenup will continue in their roles as forwards and that Myers will hold down the center position. Blandin and Thompson have not been threatened with dismissal because of rivals, although several other men have kept them going at a fast pace.

ST. JAMES FOE IN 40 TO 8 VICTORY

The Monticello Community club quintet, which meets the St. James tossers on the local floor this Friday evening handed Sullivan a 40 to 8 defeat the first part of the week, holding the Moultrie county five without a single point for three-quarters of the game. All of the Piatt county players but Jones entered the scoring column.

Schulz Retires From Football.

Detroit, Mich., Jan. 11— Simultaneously with the announcement by the University of Detroit that it would not renew the football coaching contract of Adolph "Germany" Schulz, he announced his permanent retirement from football coaching.

Schulz said he would devote his time to his own business. The Athletic Board of Control of the university announced that the job would remain open for about a month before the actual selection of a football mentor would be made from the more than sixteen applicants.

Fitzpatrick to Coast League.

Los Angeles, Cal., Jan. 11—Matty Fitzpatrick, former Western and Three Eye League umpire, has signed a contract as an umpire with the Pacific Coast League, President Harry A. Williams announced.

FIRST IMPORTANT GAME OF SEASON FOR I. W. U. FIVE

Bloomington, Ill., Jan. 11—The first important conference game of the season for Illinois Wesleyan's 1924 basketball entry is to be played Friday night at 8 o'clock at Memorial gymnasium, when Coach Ralph McKenzie's Red and Gold clad five from Eureka calls for its annual engagement with the North Siders.

Eureka has always been "easy" for Wesleyan in other years but a bristling argument is anticipated tonight, the Christians being considerable stronger than usual this winter. The Woodford county collegians victory over Millikin has aroused a great deal of interest on the North Side, and a capacity audience is expected to see the brush.

Wesleyan guards have been instructed to watch Mr. Everett Patelski, hero of the Millikin game, very closely tonight, while strict attention will also be paid to Messers. Ryff and Tweedale, giant centers of the Christian five.

The lineups of the two teams tonight will probably be:

Wesleyan		Eureka
Zinser	F.	Patelski
Dunham	F.	Cagle
Anderson	C.	Ryff
Oliver (C.)	R. G.	Warren (C.)
Gottschalk	L. G.	Whittler

ILLINI WRESTLERS TO BATTLE PURDUE

Champaign, Ill., Jan. 11—Coach Prehn and seven University of Illinois wrestlers will leave for Lafayette early Saturday morning, where they clash with Purdue Saturday night. Coach Prehn has been working his men hard for the past six weeks and prospects for a successful season are fairly good. McMillan, heavyweight; Laase, light heavyweight; Capt. Player, middleweight; Barnes, lightweight; Shatiko, welterweight; Kenney, featherweight, and Tosetti, bantamweight, will represent the Illini.

Centre ReLeases Moran.

Danville, Ky., Jan. 11 — "Uncle Charley" Moran's resignation as football coach at Centre College has been accepted and he has been released from his five-year contract, which had four more years to run, Dr. C. E. Allen, faculty chairman of athletics, made known here today.

The football mentor was released from his contract, Dr. Allen said, because the Athletic Board felt indebted to him on account of his long and successful service at Centre and felt it should not stand in his way if he wished to better his condition.

Mr. Moran recently signed a three-year contract to become head football coach at Bucknell College, Lewisburg, Pa.

And Along Came Tex.

TEX RICKARD

Jim Mullen, the Chicago, Peoria and St. Louis boxing promoter, broke into print several days ago to the effect that he was planning to stage a Dempsey-Gibbons match near Chicago.

That was fine until "Along Came Tex Rickard" who is the Barnum and Bailey of the boxing game. Tex jumped into the ring and announced that he would put on the return bout. That settled it because Tex has the money and can get the place to stage the battle.

WALTON LEAGUERS IN BIG BANQUETS

1,000 Expected to Gather At Chicago Affair.

Chicago, Ill., Jan. 11—A thousand sportsmen will attend the Chicago Chapter of the Izaak Walton League of American banquet in the ballroom of the Drake Hotel on January 15 at 6:30. The banquet is to celebrate the second birthday of the league, which was established in Chicago with fifty-four members.

Approximately 500 banquets will be held throughout the nation on January 15 and many of these will have more than 500 sportsmen present.

LANDIS GUEST OF HONOR.

Baseball Commissioner Landis will be the guest of honor at the local gathering. Will H. Dilg, founder and president of the league, will tell of the league's progress.

There will be a moving picture exhibit of rescue work along the Upper Mississippi River, showing the bureau of fisheries rescue crews at work. From this region more than 100,000,000 six-inch baby black bass were rescued in 1923.

The General Federation of Women's Clubs, with 4,500 local women's clubs, represented by more than 2,000,000 members, is officially back of the league.

SEEK BIG TRACT.

The league is asking the national government to take over three hundred miles of Upper Mississippi River bottom lands. Senator McCormick has introduced the bill in the Senate and Congressman Harry Hawes in the House. The bill has had two readings.

The league is asking for an appropriation of $3,000,000 with which to purchase this area, which represents the last stand of wild life and warm water game fishes in the Mississippi Valley.

In addition they ask for an appropriation of $300,000 per annum for upkeep and policing, $100,000 of this to go to the biological survey for wild life and $200,000 to the bureau of fisheries for fish life.

LOTTERY MAY SAVE COLOGNE CATHEDRAL

Great Building Sadly in Need of Repairs.

Cologne, Jan. 11—(AP)—Cologne's great cathedral is being neglected because of the impoverishment of the Cathedral Building Society and the inability of its members to raise sufficient funds in the Rhineland to keep the historic building in repair.

Consequently an appeal has been made to the Prussian Ministry to grant permission for the establishment of a lottery from which money may be raised to keep a few workmen employed on the building. The sandstone is extremely fragile and needs constant attention.

The dispatch stated that May declared he would have the $10,000 or play no ball this season. It also said May was under contract to the Almendores club to March 1, and that his departure caused a flurry in Cuban baseball circles.

Peoria, Ill.—Patsy Rocco, East Chicago middle weight will oppose Alex Trambitas, former sparring partner of Jack Dempsey, in the main bout of a boxing show here tonight. Rocco was substituted for Jack Malone of St. Paul who contracted a severe cold.

RICKARD WILL STAGE BATTLE

Between Jack and Tom in May or June.

New York, Jan. 11 — It seemed highly probable today that Jack Dompsey would defend his title for the second time against Tom Gibbons of St. Paul in a bout in May or June.

Everyone concerned has agreed to the fight except Jack Kearns, Dempsey's manager, and he gave every indication that the program and balance sheet proposed by Tex Rickard would be satisfactory. Kearns departed for Hot Springs, Ark., and said he would give his definite answer when he returns.

HAVE BEEN HOPEFUL.

Prospects for the bout developed when Eddie Kane, Gibbons' manager, visited Rickard. Kane and Gibbons have been hopeful for a return match with Dempsey but Rickard had frowned on the proposal although Gibbons is the only man to stay the limit with the champion.

Rickard said there was nothing definite to say except he would utilize either the Polo Grounds or Yankee Stadium here or Boyle's Thirty Acres in Jersey City.

LOYOLA DEFEATS ST. VIATOR FIVE

Bushell's Team Also Fails to Hit Basket.

Kankakee, Ill., Jan. 11—Better team work gave Loyola university a 16-13 win over St. Viator here Thursday night, when they clashed in the opening cage tilt of 1924 for both teams.

The game was played on the new $100,000 armory floor here. St. Viator was enabled to get but two field goals, due to the Loyola guards covering their men so well. Although the score was close, Loyola had the game well in hand at all time. Schlack, Loyola guard, was the outstanding player of the game with four field goals and one free throw.

Eller To Indianapolis.

MANAGER HARKINS SIGNING PLAYERS

Buster Woodworth Included in List of Three.

Bloomington, Ill., Jan. 11—Business of signing the nimble athletes is now occupying the attention of Manager J. (Pat) Harkins. The contracts of three more players were announced Thursday by the Bloomington skipper. The list: Ray ("Buster") Woodworth, peerless second-sacker for the Bloomers for the past two seasons; Harry Kraus, an infielder from Pottstown, Pa., and William Doolin, an outfielder, Hammond, Ind.

Woodworth was here Wednesday enroute to El Paso with the Wapella basketball team, and was in conference with Harkins only a few minutes, until he was under contract.

IS GREAT FAVORITE.

"Buster" is a great favorite here, and his hundreds of admirers in the Evergreen City will be delighted to know that he is again under contract to the Bloomington club, although his signing was purely a matter of attaching his "John Hancock" to the papers, as he had expressed himself earlier in the winter of being desirous of returning here for another season. Another year in this league will fix him for the big show, is the belief of the fans.

RECOMMENDED BY HAEFFNER.

Kraus, the new shortstop, whose contract arrived in Thursday's mail, and who may be Woodworth's teammate around the keystone sack, was recommended to Manager Harkins by Bill Haeffner, former Pittsburg catcher.

He has a great record in independent baseball circles in Pennsylvania, and is said to be a great prospect.

Doolin, the third member of the trio under contract is an outfielder hailing from Hammond, Ind. He is twenty-one years of age, weighs 155 pounds, stands five feet nine inches in his stocking feet, and is a left-handed hitter.

GREB WILLING TO MAKE 160

Has $5,000 Forfeit Up for Johnny Wilson.

BY FAIR PLAY.
(Copyright, 1924)

New York, Jan. 11—Some like Harry Greb and others do not. But no one can deny that he is always colorful and always a source of news. Just now he is figuring in the events of the fighting world more prominently than any other fighter.

First Johnny Wilson heard that Greb would enter the ring weighing nearer to 170 pounds than 160, the middleweight limit. Thereupon he put up a demand that Greb post $5,000 as a weight guarantee. Harry never blinked over the proposition agreeing at once. So it is a safe bet the champion will enter the Garden ring on the night of Jan. 18 at the class weight limit—with the addition, of course, of such pounds as he can pile on between 2 o'clock the afternoon of the battle and 10 o'clock at night.

MUST BE CONFIDENT.

Greb's expressed willingness to make 160 pounds is somewhat surprising since he could weigh 165 and make faces at the boxing commission if that body tried to punish him. And at the same time he would be stronger than at 160. He must be pretty confident of his ability to go fifteen rounds at top speed at the lighter weight.

Some interesting dickering is going on concerning Greb and Mike McTigue. Harry sees a chance to win the world's light heavy title by beating Michael and Michael in turn sees a chance to win the world's middleweight title by defeating Greb. Promoters are trying to get the two men to consent to two meetings in which there is at least a fair chance that the two boxers would exchange their titles.

BETTER MIDDLEWEIGHT.

McTigue is out of his class as a light heavy and is better, far better, when fighting in the middleweight division. With Greb just the reserve in the case. Obstacles to this promotion scheme are three fold. First McTigue is going abroad in February to prepare for his March 17 bout with Joe Beckett, out of which he hopes for great things. Second, McTigue's row with his manager, Jacobs, has not been straightened and finally Greb wants to fight for McTigue's title first and McTigue wants the first bout to be for Greb's title. Otherwise there are no difficulties in the way of arranging these bouts.

POOR SIKI.

Philadelphia fans, having had a look at Siki in action say that once will be enough. They say he has no science at all, doesn't know what a straight wallop looks like and on defense stops everything with his face. He has poor judgment of distance and telegraphs his wild swings. To think of his meeting Joe Walcott, Sam Langford, Harry Strong when these colored battlers were in their prime inspires raucous laughter in Philly, where they know a fighter when they see one.

The Year Around.

Chicago, Jan. 11—How to make a golf links useful in winter has been solved by the Skokie Country club, a winter pastime committee setting out a year ago to provide frosty sports for members. The pond at the ninth or water hole, frozen over in winter furnishes a skating rink to accommodate the 400 members and their families. In addition the committee has provided a slide from the 18th green that will furnish a 600 yard ride for tobogganers and ski riders.

Charter Special Train

Mason City, Ill., Jan 11—Mason City basketball fans are sponsoring a special train from here to Lincoln Friday night, leaving here at 6:15, returning at 11 p. m., on account of the basketball game between Mason City high and Lincoln high.

New York—Sammy Mandell, Rockford Ill. light weight, will make his debut in a main bout at Madison Square Garden tonight in a 15 round match with Jack Bornstein of Yonkers, former junior light weight title holder.

Marion, Ill.—The Little Ten high school conference basketball schedule has been upset by the calling of three companies of the Illinois National Guard at Marion. Captain William Claycomb, center and Richard Powell, guard, of the Cairo team are members of company K, and Phillips, center and Mountain, guard, of Carbondale, are members of the headquarters company.

New Golf Head May Advocate Many Reforms

Wheeler W. D. Vanderpool, newly elected president of the United States Gold association, will sponsor a liberal or conservative administration is a question which is engaging the golf fans of the country at present.

VANDERPOOL.

Vanderpool was recently named to succeed J. F. Byers retiring president. Byers was a conservative. It is believed Vanderpool is more inclined to liberalism.

If this is so, golf fans expect to see a merger of the U. S. G. A. and the western Golf association at an early date.

And if this comes to pass it is predicted a number of reforms will be introduced into the conduct of the sport, including the adoption of steel-shafted clubs, a more lenient penalty for balls out of bounds and possibly the abolition of the stymie.

TRINITY COLLEGE AFTER IOWA COACH

Want Howard Jones for Five Year Period.

Durham, N. C., Jan. 11—The athletic council of Trinity college recommended to the board of trustees that Howard P. Jones, director of athletics at the University of Iowa, be elected director of athletics for Trinity for a period of five years beginning with next September.

Jones recently spent two days in Durham en route home from the meeting of football coaches held in Atlanta, and discussed the proposition of coming to Trinity. After going over the proposition he returned to Iowa to consider it, and this week notified Grad. Mgr. Joe Ruff that he would accept Trinity's proposition. As the position of athletic director carries with it membership in the faculty the action of the athletic council will have to be approved by the board of trustee, a meeting which will be held soon to take the matter up, but there is little doubt that the action of the athletic council will be approved by the trustees.

UNDER CONTRACT.

Iowa City, Ia., Jan. 11—Howard Jones, University of Iowa football coach, refused Thursday night to either deny or confirm reports that he would resign as coach at Iowa to accept an offer at some eastern school, rumored to be Lafayette college of Easton, Pa. "Besides, I am under a three year contract here," Jones added.

PLAYER LIMIT UP ON COAST

Some Clubs Want 25 Men and Others Say 20 Best.

BY JOHN B. FOSTER.

Copyright, 1924.

New York, Jan. 11—The question of player limit will come up at the first meeting of the Pacific Coast League under the new administration, to be held shortly.

Three clubs representing the "fundamentalists" — San Francisco, Vernon and Portland, favor 25 active players, while the "modernists"—Los Angeles, Salt Lake City, Sacramento and Seattle, want 20 players.

MAIN REASON.

Player limit is insisted upon in the major leagues because without it the rich clubs would hog all the players if they could. If there are any clubs out on the Coast that do not wish 25 players there is no reason why they should take them on because the player limit happened to be 25. In fact a 25 limit out there has its sound economic side, seeing that the Coast is so far away from the section where most players abound and that it is worth while to protect the youngsters developed there.

ANOTHER ANGLE.

Of course if the league is going to assume the policy that it is better to borrow from the big leagues than go ahead and bring out its own, the smaller the limit the better, because it only means developing to a limited extent what the majors want developed or taking care of their leavings. If a coast club could get ten clever youngsters it could lose only one by draft at the worst and with a squad of 25 it could afford to carry ten recruits.

CRITICISE DUNN.

The schedule committee of the International League has completed a draft for games in 1924 and believes that the schedule will be better adapted to the purposes of the league than it was last season.

Criticism has been made of Jack Dunn because he did not sell Boley to the Chicago Americans at a fancy price in 1923. It is hardly fair to Dunn, who considered Baltimore first. If he let Boley go he thought he would lose the championship in 1923. He should be commended for taking the stand he did.

STOP IT!

Why Cough Your Head Off

Make Your Own Cough Mixture for the Whole Family and Save Money. It's Easy.

When you can make in your own home a wonderful cough mixture far ahead of any you can buy ready made, why not do it?

This home made mixture will stop the most stubborn cough and is fine for chest colds and acute catarrh. Children love it.

Get from any druggist one ounce of Parmint (double strength)—to this add a little granulated sugar and enough water to make half a pint—that's all there is to it.

Like a soothing, healing poultice one costly substance in this home made cough mixture spreads itself completely over the membrane of the throat. This causes the most stubborn lung-on cough to cease almost instantly. No ordinary slow-acting cough syrup contains this expensive ingredient.

Any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and catarrhal deafness.

Get Parmint and get better.

Don't take chances with a cold; 25c will knock it quick. For sale by the Decatur Drug Company.

JOHN TOKOLY SOLD BUILDING

Transferred to Son, Now Belongs to Tokoly's Lawyer.

Taylorville, Jan. 11—It has been learned here that John Tokoly, convicted Thursday of manslaughter in connection with the death of George Baldwin at Pana and under indictments for the deaths of four other victims of poison booze, had transferred his soft drink place to his son Stephen, following the deaths of the booze victims. The consideration was placed at $3,750.

Shortly afterward Stephen Tokoly sold the property to John Hogan, who is their attorney, for $20,000. The transfers have been recorded in the office of Circuit Clerk James Hunter. Pana men say the reason for the transfer was in the event of damage suits being filed by the widows of the booze victims and the blinded men, there could not be a foreclosure on the property.

MAY APPEAL CASE.

With the decision on the motion for a new trial withheld by Judge Dove, Attorneys Hogan and Reese announced Thursday that they will take immediate steps to carry the fight into the supreme court if the court overrules their motion. It was expected that a decision would not be given before Monday morning.

Attorney Hogan stated that he will base his appeal to the supreme court if a new trial is denied on the ground that the court erred on instructing the jury that it could return a verdict of manslaughter, as the new statute, under which the Pana saloonkeeper was convicted, provides for murder only.

The main issue upon which the defense will base its appeal will be the unconstitutionality of the new statute, under which the men were indicted and convicted.

WIN APPEAL CASE

Springfield, Jan. 11—Because of faulty indictments the appellate court, in opinions handed down Thursday reversed the judgment of the county court of Christian county in the cases of Arthur Maton and Paul Tokoly, who were convicted of violating the prohibition law and remanded the causes with directions to quash the informations. The appellate court holds the indictments did not charge the commission of an offense. Maton and Tokoly were sentenced to jail and to pay a fine in the county court.

Paul Tokoly is under indictment, with his father and brother Stephen, for manslaughter, but has not been found.

DELAND MAN IS KILLED BY TRAIN

Mac Swartz Struck on Galesville Crossing.

Deland, Jan. 11—Mac Swartz, a well to do farmer near Deland, was instantly killed Thursday afternoon about 1:30 o'clock when he was struck by the Wabash southbound limited passenger train on the crossing in Galesville. He and his brother, Harry Swartz, of Farmer City, were in a closed car driving over the crossing when the train struck them. Harry Swartz was not injured. The view on the tracks was not obstructed, but it is thought the moisture on the windows in the auto prevented the men from seeing the approaching train.

The body was left on the ground where the accident occurred, awaiting the arrival of Coroner J. W. Porter of Monticello. It was later taken to Deland for the inquest.

PROGRESSIVE FARMER.

Mr. Swartz was the oldest son of Mr. and Mrs. J. J. Swartz of Mansfield, and had lived on his farm near Deland for many years. He was a progressive farmer. He was a member of the Deland Community club.

He leaves a wife and three children, Bernice, Lyle and Lorin, his parents of Mansfield, three sisters, Mrs. McCuen of Milwaukee, Wis., Mrs. Coffman of Kaiser, W. Va., and Mrs. Husch, south of Mansfield, and three brothers, Ross and Bruce Swartz, south of Mansfield, and Wilmott Swartz of Detroit, Mich.

The funeral probably will be held Sunday at the Methodist church.

Piles

Can't Be Cured from the Outside.

External treatments seldom cure Piles. Nor do surgical operations. The cause is inside—bad circulation. The blood is stagnant, the veins flabby. The bowel walls are weak, the parts almost dead.
To quickly and safely rid yourself of piles you must free the circulation—send a fresh current through stagnant pools. Internal treatment is the one safe method. Ointments and cutting won't do it.
J. S. Leonhardt, M. D., a specialist, set at work some years ago to find a real remedy for piles. He succeeded. He named his prescription HEM-ROID and tried it in 1000 cases before he was satisfied. Now HEM-ROID is sold by druggists everywhere under guarantee. It is a harmless tablet, easy to take, and can always be found at Decatur Drug Company, who will gladly refund the purchase price to any dissatisfied customer.

PROFESSOR PREFERS UNEDUCATED GIRL

Controversy Rages Over Conduct of Some Co-Eds.

BY ROBERT T. SMALL.

Copyright 1924.

New York, Jan 11—The modern college girl has just received the worst lambasting of her career and the question before the country's educators resolves itself into this

"Are the college campuses today infested by an army of hard drinking, cigarette-smoking, licentious Amazons?"

Dr Charles T Smith, president of Roanoke college, Roanoke Va, says they are.

SAYS THEY ARE NOT

Theodore H Tweston, proctor of Cornell University where co education holds sway, says they are not.

Dr Smith does not believe in over-doses of education. He thinks such doses tend to make the college girl blase, pompous and "intellectually shifting." The half educated girl as a shallow brain, bad habits and a ... of trait ... animal magnetism. The uneducated girl is apt to be the ... and most serene of all. Despite all this, Dr Smith says the higher education for women may be all right if it is not taken too seriously.

FOR EDUCATION

... for latter day conditions in the ... according to Dr Smith ... not lie in any great new ... righteousness for the ... of the ... tarian college is primarily for education and only secondarily for ... version.

What is needed for the younger generation is the good example of the elders Perhaps there has been too much commingling of the younger and older sets at dances The youngsters have seen their elders drink between dances and have gone and done likewise.

PROBLEM SOLVED

Proctor Tweston feels that the problem has been largely solved at Cornell and he avows there is less drinking in that university than in any large college in the country He attributes this wholesome condition to the fact that the "co-eds" have banded together to refuse to dance with any student who has "even a faint smell of liquor" about him The girls also have agreed to boycott boys known to be drinkers

PLAN NEW STATE GAME PRESERVES

Illinois to Establish More Sanctuaries.

Springfield, Jan 11—Fish bird, and game sanctuaries and hatcheries are to be established in all sections of Illinois under plans now being developed by the state division of game and fish, according to William J Stratton chief of the division

Provisions have been made for the establishment of three fish hatcheries and an indefinite number of bass ponds, or fish sanctuaries Locations for the latter are now being surveyed by the division

IN CENTRAL PART

One of the hatcheries is to be located in the northern part of the state, probably in the vicinity of Rockford, while a second will be developed in the central part of the state and a third in southern Illinois.

The bass ponds will be distributed in all sections and will be stocked and cared for by the state, according to Mr Stratton These will usually include considerable surrounding land, for bird and animal sanctuaries.

PURCHASE STOCK.

The division has arranged to purchase all of the entire output of one of the largest wild game farms in the state for use in artificial restocking Pheasants and other wild birds will be introduced.

The state has been restocking rivers with fish for sometime and with the help of the preserves to be established, and those already in operation a permanent supply will be assured Mr Stratton said.

Eventually the division hopes to add to its preserves a large section on the Illinois river to be used as a sanctuary for wild duck and other migratory birds

Will Open Mattoon's Bank Next Week

Capital Stock Subscriptions Come Readily—Depositors of Old Bank Not to Lose.

Mattoon, Jan. 11.—It is not certainly known when the new State Bank which supersedes the State Trust and Savings Bank will open for business, but it is the consensus of opinion that the date will be Monday, Jan. 14, or within a day or two thereafter. Plans are being made with that end in view, but definite announcement is withheld pending the completion of the work of the auditors, who are investigating the condition of the old bank. It is anticipated, however, that this task will be finished by Saturday of this week, although the [illegible] statement forthcoming [illegible] when this work would [illegible]

We cannot say other than that [illegible] auditors are still at work. It is [illegible] the new bank will [illegible] Monday.

DEPOSITORS NOT TO LOSE

[illegible] general satisfaction [illegible] citizens when it [illegible] Thursday afternoon through the medium of a local afternoon newspaper that a new bank would be started and that the [illegible] of the old bank were altogether likely to receive 100 cents on every dollar they had on deposit in [illegible] institution.

[illegible] whether the money was to [illegible] from the assets of the old bank or from the pockets of the stockholders who are liable to twice the amount of the value of their stock [illegible] any shortage the depositors did [illegible] and did not seem to care [illegible] as they got theirs.

STOCK SELLS WELL

[illegible] following [illegible] of the meeting at which [illegible] of an entirely new bank [illegible] at its head was [illegible] upon [illegible] [illegible] appointed [illegible] business men and capitalists [illegible] the capital [illegible] of the new bank. They met [illegible] response to their solicitations [illegible] their work was not completed in time for the new stockholders to take up the work of completing the organization at an afternoon [illegible] had been hoped. [illegible] of directors and sub[illegible] officers will [illegible] the sale of capital [illegible]

[illegible] but it is [illegible] appear on the directorate of the new bank.

MEN OF STANDING

[illegible] responsible for the new [illegible] institution and prominent in its organization are men of the [illegible] integrity and highest standing in the community, some of them [illegible] reputation more than local. [illegible] represent varied businesses and [illegible] the front in this crisis to avert a more serious commercial disaster and also to the depositors the [illegible] little they had [illegible] in the old bank.

DEPOSITORS VISIT BANK

Depositors are still lining up [illegible] seventeenth street entrance to [illegible] State Trust and Savings bank [illegible] their pass books to an official [illegible] to receive them. [illegible] number is greatly reduced, however, [illegible] at no time were more than [illegible] five seen there at one time [illegible] in a while there was one who [illegible] his or her passbook, left there previously, had been balanced. These were cited to one of the tellers windows and if the book was ready it was returned to the owner.

A few were disposed to linger with an anxious mien clearly hoping for a word that would indicate their funds were safe. Some of these wore tattered clothing some plainly were inured to toil, and here and there was a young woman clerk or teacher or stenographer, whose savings were at least temporarily withheld from them.

Occasionally one would ask to see President Moloney and that official at whose door is by common report placed the blame for the closing of the bank appeared smiling.

QUICK CHANGE

It is told that the run on the State Trust and Savings bank a couple of years ago was precipitated by its quick change from a National to a State bank. It was called the State National Bank. It is said that a national bank examiner had an interview with President Moloney and that official called in his board of directors and reorganized the bank as a State bank.

COMMUNITY QUIET

Contrary to other situations of this sort where banks have closed their doors and there was fear that depositors would lose their money there has been no loud clamor or untempered accusations of crookedness in connection with the conduct of the affairs of the State Trust and Savings Bank. The worst that has been said commonly is that "the trouble is due either to faults in business management or errors of judgment in making loans and not to peculations or misappropriation of funds by officers or employes of the bank.

TROUBLE GATHERING

It is said that the clouds have been gathering for some months that in fact conditions have grown worse since the run on the bank two years ago checked in its incipiency by the timely neighborly assistance of another Mattoon bank.

One of the alleged instances cited is that President Moloney and his directors declared a dividend Jan 1 or thereabouts after being directed by the state auditor not to do so and that the president gave a Christmas gift of $20 to each employe of the bank when he knew the bank was in distress.

DEPOSITS RECEIVED

It also is cited by some that the bank received deposits all last week even at the time President Moloney is said to have been in Chicago trying to liquidate an overdraft of some $80 000 at the Federal Reserve bank failure to do so according to one statement precipitating the closing of the bank.

Furthermore it is said that a Mattoon school teacher deposited a check in the bank early Monday morning of this week even at the time W B Whitlock chief clerk in the state banking department, was waiting to close the bank immediately upon its opening at 9 o'clock.

Acceptance of money on deposit when the bank is known to be insolvent is rated in the statutes as a crime.

OTHER BANKS HOLD OFF

It is understood that officials of Mattoon's other two banks, knowing that the State Trust and Savings bank was encountering rough seas, had been negotiating for several weeks for its liquidation by them, but stipulated they should examine the bank's paper. This stipulation was refused by the president of the bank, it is said, and not until the bank was closed by the state auditor would he permit the other bankers to have a look-in at the bank's paper, with a view to taking it over. When these experienced bankers did start examination of the assets of the closed bank, it is said that it took them only three or four hours to determine they did not care to assume the assets and they withdrew their offer. Rumor says $150 000 to $175,000 was regarded as undesirable.

KLAN TALK

One important contributing factor in the closing of the bank is said by some to have been the Ku Klux Klan which inadvertently became the means of many heavy withdrawals of accounts from the institution, it is asserted.

President Moloney and a number of others on the official roster of the closed bank are accredited with being members of the Klan. In fact for some months the bank is said to have been quite generally referred to as the Ku Klux bank, and it is related that a man who wished to pay an account at a local business house when asked on what bank he wanted a check, replied "Just give me a check on the Ku Klux bank."

At Christmas time a Christmas tree sponsored by the Klan, was placed directly in front of and anchored to the State Trust and Savings bank, and it is said the electricity for lighting of the cross that topped its branches and illuminated the tree came from the bank. Immediately after this it is said several prominent accounts of business men were withdrawn from this institution.

The funds of the local klan, as well as those of many of the individual members are said to be on deposit in this bank.

ALLENVILLE BANK

D G Carnine, cashier of the People's State Bank at Allenville which was closed simultaneously with the State Trust and Savings Bank of Mattoon, told a Review representative Thursday evening that the closing of his bank was due solely to the fact that his cash was tied up in the Mattoon bank, and with that shut off there was nothing to do but shut up shop. He himself voluntarily called for an examiner.

S W Phillips of Mattoon a director of the State Trust and Savings Bank is president of the Allenville institution, the capital of which is $10 000.

HOLD TWO MEN FOR CAR THEFT

George Flores' Auto Found Northeast of Atwood.

The Maxwell sport touring car belonging to George Flores, 239 Oakdale Boulevard that was stolen from in front of the Elks lodge Wednesday night, was recovered Thursday afternoon about five miles northeast of Atwood, and the two young men in charge of the car are under arrest. They gave their names as Ernest Shaffer of 2261 East Sangamon street and Earl Edwards of near Effingham. They stopped the car on the highway near the home of a farmer named Kimmel and getting out of the car started walking down the road.

Mr Kimmel took down the license number and telephoned Chief Crump at Decatur, who at once asked him to get the young men and hold them till an officer could arrive. Mr. Kimmel organized a posse immediately and soon the two were under arrest and placed in jail at Atwood. Sheriff Underwood sent after them Friday.

While on these trips Mr Wilkinson invariably looks up some of the high school students of the day when he was head of the Decatur school.

Mr Wilkinson does not think [illegible] conviction of Jack Walton, former governor of Oklahoma, probable. [illegible] says that Walton was not a proper man for governor and while the K[illegible] issue has entered the situation it w[illegible] not the original cause of th[illegible] troubles.

SIDE-FASTENING BLOUSE AND WRAP-ABOUT SKIRT

At times skirt and blouse styles may wane but they are always revived to be smarter than ever

The two ladies wearing these costumes show the 1924 edition The blouse buttons over on the hip. The pockets at the waist line are a new feature It's very smart to wear a side fastening style like this with a skirt that has a wrap about effect and is on a camisole top

If one prefers the plain skirt, a very straight line is adopted. The skirt illustrated on the right hand figure is not on a camisole top so that it can be worn with an over-blouse or a tuck-in tailored shirt waist

BRODERIE ANGLAISE APPEARS ON FROCKS

Paris, Jan 1.—A great deal of broderie anglaise—the cut-out designs hitherto used chiefly on organdie and linen—is seen today on afternoon frocks The frocks are of soft silk

Paris Jan 11—White is extensively worn just now Half the formal gowns one sees are oyster or cream white the only touch of color being a large knot of bright ribbon at the hip

London, Jan 11—One new species of blouse seen here today is extremely long waisted It is without fullness, being a sort of sack slipped over the head and coming to the hips and becoming only to slender figures The neck is rounded and rather more low than usual, the sleeves stop just below the elbow.

London Jan 10—A little gift which has found favor with the debutante today is a box about the size of a dressing table powder box Inside is a pair of stockings of silk so fine that they can be folded into this small compass

New York Jan 10—A striking reflection of the Chinese influence was seen in a local shop today in a Mandarian hat of black satin This fits the head as snugly as a bathing cap having a very wide, plain band of satin surmounted by a little peaked top, closely pleated

New York Jan 11—Many of the latest sports costumes bid fair to make the southern links a riot of color The suit itself, in mohair or fibre silk is in a plain green, blue or tan but it has a knee-deep border of Roman stripes

LEGION AUXILIARY STANDS FOR BONUS

Mrs. W. H. Morgan Says Women Can Help.

"The Female of Species is More Deadly Than the Male" These words of Kipling were quoted time and again by Mrs W. H. Morgan state president of the American Legion auxiliary in speaking at the auxiliary meeting Thursday, of the unjustness that has been dealt out to the ex-service men, particularly in New York where the Wall Street financiers have organized into a league called the Anti-Bonus League

"New York has forgot how a few years ago they called for these men to be sent to protect there shores, which were unprotected from the enemy—and how these boys fought to keep them at home" said Mrs Morgan "The American Legion Magazine advertising has been cut one half"

MANY VICTIMS

She spoke of the many men who are now confined in hospitals and referred to the 300 000 who are victims of shell shock many of whom do not know there own names, and pictures are being sent out over the country, in the hopes that some 'Buddy' can tell them something about them During the last few months the auxiliary women saw the need of a green house where some of these boys could work with flowers in the winter months, as they seemed to enjoy working in the gardens during the summer, and within two weeks, $2,000 was raised by contribution and a room 60x20 was built and plants were donated by florists throughout the state An effort will be made to raise another $2 000 this year to increase this greenhouse, as it has been found it is far too small to keep these boys time occupied.

DISTRIBUTE SUPPLIES

"Everything sent to hospitals by auxiliaries absolutely reaches the men" said Mrs Morgan. Auxiliary women open every box, and distribute the supplies to the boys."

She urged the women to put on a membership drive in January and February.

INSTALL OFFICERS.

Preceding Mrs. Morgan's talk the officers of the auxiliary were installed. The officers are: President, Mrs. W. E Hartman; First vice president, Mrs. Flora Mammen, Second vice president, Mrs. W. H. HOMECOMING FOR GRACE LADIES' AID

Grace Methodist Western Division.

The western division of the Ladies' Aid of Grace Methodist church held a fine homecoming service in the church parlors Thursday afternoon. Mrs A W Conklin, Mrs. J. S. McClelland and Mrs J. D. White were members of the Ladies' Aid in its infancy when the church was the old Eldorado street church, now the Masonic Temple. These women told of some of the drudgeries performed then in raising money for the church.

At the time of Dr J. W VanCleve's ministery here the new church was erected and he divided the Aid into several divisions

Mrs S A Hess was the first president of the General Aid, succeeded by Mrs H M Beadles, Mrs W. L Witzeman and Mrs A A Hill, the present president

FIRST PRESIDENT

Mrs Beadles was the first president of the western division and she was followed by Mrs. J H Hamm, Mrs George Pitts, Mrs Charles McCarter, who served for five years and Mrs Frances Stouffer

Most of these past officers were present Thursday afternoon and responded with two minute talks. Rev Wilbert Dowson made an interesting talk to the women, telling them that some day they would be recounting their experiences and hardships to the younger generation

Mrs A A Hill told of the new bulletin board on the church lawn and asked the aid of the western division in paying for it The money for the bulletin board is to be raised by the selling of bottles of extract and each member was asked to sell two bottles at thirty-five cents each. The extract may be secured at the home of Mrs H L Montroy, 915 North Union or Mrs. George Pitts, 1056 North Church.

TWO NEW MEMBERS.

Two members were taken into the society Thursday They were Mrs. L J. Glosser and Mrs. Hurley Taylor,

Mrs. E. A. Lemar, chairman of the ways and means committee, explained the parish house chest, which has been kept by the division this year and which was to be opened Thursday afternoon She stated that the idea was not original but was instituted by King Jehoash and the priest of the temple, Jehoiada, more than 800 years before Christ. When this first chest was opened the silver and gold was in such abundance that it had to be carried out in bags The division's chest was placed on a table in front of a miniature temple and when opened was found to contain $49.16, After it had been opened, Mrs. J. H. Hamm and Mrs M. Kirkwood sang "Little Church in the Wildwood."

The afternoon program consisted of readings by Miss Marie Williams and Miss Jolla Brundage and a violin solo by Miss Florence Emmens, accompanied by Miss Margaret Bresseman Refreshments were served during the social hour

UNIVERSITY CLUB HEARS OF TELEPATHY

Dr. A. R. Taylor Reads Paper on Subject.

Telepathy, what it is and the theories regarding the transference of thought without the aid of mechanical devices, and also a review of the advances made during the ages for the transfer of ideas and knowledge from one person to another from the days of the sign language to those of the radio, formed the subject of the paper which Dr. A. R. Taylor gave at the meeting of the University club Thursday night.

Following the paper discussion wandered into psychic phenomena and other phases of the spiritualistic realm.

Dr. Taylor's expressed belief that there is ground for belief in the possibility of telepathic thought transference was shared by many but a few members remained skeptical, basing their skepticism on the possibility of co-incidences accounting for the incidents which are brought forward to substantiate the telepathic stand.

NATIVE INDIAN TO SPEAK SUNDAY

Rev. James M. Cornelison to be at Westminster.

Rev. James M. Cornelison, who for twenty years has worked among the Indians in Oregon, will speak Sunday morning in the University Auditorium, assisted by the native Indian, Motanic. In the evening in the Westminster Church building they will prosent in costume a dramatic impersonation, "Seeking the White Man's Book of Heaven."

Motanic was once known as the worst bad Indian of his tribe. He is now a prosperous ranchman, with a wife and eight children and enjoys working with Mr. Cornelison in helping others in his tribe. They are spending two weeks in the State of Illinois telling about the worthwhile accomplishments among the Indians.

MASONIC BANQUET IN HARRISTOWN

Decatur Men Furnish Program for Evening.

Decatur men furnished the program for the annual Masonic banquet in Harristown Thursday night which was held in the Masonic hall in that village with more than 200 people in attendance.

F. C. Peck, grand lecturer delivered the opening address. Harry Barber's Masonic orchestra played several selections and as additional features Robert Gibson and Harry Barber gave solos. Oscar Van Hall gave a violin solo.

"It cost me LESS to use Enterprise Flour!"

"Here I've been using Enterprise all year and paying more for it than I would have paid for ordinary flour just because I felt that the fine baking I got from Enterprise was worth a little extra. And now when I add up my budget I find that I've actually *saved* money!"

The reason is simple. Valier's Enterprise Flour is milled from only the choicest part of good, strong hard wheat. Its strength is concentrated. Consequently a sack of Enterprise will yield more bakings. It is not at all uncommon to get four more loaves from a sack.

And because the high quality of Enterprise never varies—even in a year like this when good, strong wheat is scarce—you will not waste it in expensive failures. *All* of the flour in a sack of Enterprise will appear on your table in the form of wholesome, delicious baking.

Of course you pay more for Enterprise—the fine, strong wheat from which it is milled costs more than ordinary wheat. But you get more for your money. In the long run Enterprise is economical.

You can always depend on Enterprise

Few Changes Made In Kitchen Market

Eggs Slightly Higher Due to Cold Weather—Decatur Lettuce Sold.

This is just the time of the year when little change is found in the kitchen market, when the same thing appears from day to day and little that is new appears. The markets are full however, of green things as well as of fresh fruits so that an ample variety may be found at all times. The west and the south are sending in a great variety to help out during the cold days.

Some slight change in price has been noticed as the result of the cold weather but this is not great and is more noticeable in eggs and butter than in any other product. Eggs advanced slightly and recovering from the recent drop in price are now quoted at forty-five and fifty cents for strictly fresh eggs and at thirty-eight cents a dozen for storage eggs. In some places chickens have advanced slightly but this is not noticeable in all places. Pork is up a little but not materially. Butter is selling at from fifty-four to sixty-two cents a pound.

A wide range of prices in greens has come to the little market. Parsnips range from eighteen to thirty cents a pound.

DECATUR LETTUCE.

Decatur grown head lettuce is now in the market and lettuce selling at twenty-eight and thirty cents a pound with head lettuce prices ranging from ten cents each to twenty cents the size of the head governing the price. Lettuce is at its best now and keeps crisp a long time.

Cauliflower is high. The heads ranging from twenty-five cents to sixty cents, and it is not a large one one gets for the former price.

The price of bacon is somewhat less than it has been. Very good bacon may be bought now for twenty cents a pound with some of the very best selling at thirty-two cents a pound.

FISH

Fish are a little more plentiful than last week. Sun fish and croppies are coming in nicely and some very fine salmon was in Thursday's market.

Potatoes are somewhat cheaper than a year ago. Red River potatoes may be purchased at $2.20 for a two bushel sack and $2 for the white potato. By the peck they sell at thirty cents for the white potato and thirty-five for the Red River.

Some very fine looking honey sells at twenty-five cents for the square.

SERVING TEA IS A LOST ART

Best Grades and Care in Making Give Results.

Tea service is sadly misunderstood in this country. To serve good tea—and by that is meant tea that will suit the drinker and leave a pleasant memory at all hours and every day—it to many a lost art. Moreover betterment of conditions can not be hoped for until the consumer is educated into a discriminating critic.

CHANCE AT SUCCESS

The success of many a hotel and eating place that are now unsuccessful financial institutions would be promoted if one could feel certain of finding there good fine flavored and satisfying tea. For men and women who know the delicious delight of a cup of excellent tea, and that it is the one essential of a good meal. It seems the more remarkable that this item of the menu is not looked after by chefs and proprietors generally in hotels restaurants, and the like. It is so universal for them to give the mere matter of tea superficial attention that the patrons almost invariably leave the table either with an unpleasant memory or a protest concerning the tea.

It is more economical for the consumer to buy the best grade or packet tea than an inferior article. The reason is that the purer higher grade tea will yield more cups to the pound and has that unique flavor and rich delicacy which is absent from all inferior tea.

TO MAKE GOOD TEA

If the consumer will but make the teapot test and then insist upon getting good tea, he will always have a daily delight which millions enjoy in England, Australia and even Canada where tea is one of the satisfying and exhilirating functions of everyday life.

Into a warm crockery teapot put a level teaspoonful of high grade tea for every cup required. Pour on freshly boiling water—but be sure is it bubbling hot—and infuse for five minutes. You will have the most delicious cup of tea you ever tasted.

TRADE NAMES OF TEA LEAVES

The tiny leaf and bud at the top of the stem are commercially known as "Broken Orange Pekoe." The next leaf, shown on the right of the stem, is "Orange Pekoe." Then to the left is seen a "Pekoe" leaf, and to the right again is "Souchong." This is the amount that is plucked and later sorted into the above-named grades. Generally speaking, the smaller the leaf the better the quality, but this by no means always follows, as more depends upon the elevation at which the leaf is grown.

HUMANE SOCIETY AFTER MEMBERS

To Start Drive March 1; Report Much Interest in Work.

An increased interest in the work was manifested at the meeting of the humane society Thursday afternoon when it met in the Y. W. C. A. In spite of the rain there was an unusually good attendance. Plans were made for the membership drive which is to start about March 1, when an attempt will be made to enlist as many people of the city in the society as possible. Committees for this drive will be named at a later time.

The secretary stated Friday morning that there has been a wonderful increase in the interest taken in the work even by those who are not members and that those who at first were opposed to the organization of the society in Decatur are now its staunch supporters.

The condition of horses continue to be reported to the Humane society. Many horses are being worked in Decatur that are not in a condition to be worked, it is said. "It seems to be the plan," said one member, "to buy up these old, and worn out animals and work them until they drop."

The names of seven new members were reported at this meeting.

NUCOA
Takes a Tip From Nature

In the far off Tropics where cocoanuts grow, many of the towering, graceful palms overhang the seas.

And from these palms hundreds of ripened cocoanuts drop into the blue waters below, float away and are cast upon distant shores, where in the sandy soil they take root and grow to fruit-bearing palms.

So to insure the life of the cocoanut—to preserve it in all its sweetness and purity—All-wise Mother Nature armors it in triplicate—an outer fibrous husk to keep it afloat, an intermediate shell to protect it from bruising knocks, and a leather-like skin to make it waterproof.

And to preserve the sweetness and purity of

Nucoa

Nature's Own Spread for Bread

which is the richness of the snow-white meat of the cocoanut made into a delicious, healthful Spread for Bread, the makers of NUCOA take the tip from Nature's cocoanut "package"

For NUCOA'S new package is an armor in triplicate—a wrapping of snowy parchment, a moisture-proof package, and a sealed glassine wrapper.

SEASONINGS

The seasoning of foods often determin e their palatableness A little bit different seasoning will change an unappetizing but wholesome dish that is unpopular into one that finds favor with the family

Too may housewives fail in this respect of using a variety of condiments Salt pepper, onion and paprika is about the extent of the seasonings at the average woman's hand She shudders at the thought of garlic in things" but it is just the faint touch of garlic that makes the club chef so popular with her husband A "bouquet garni means nothing to her and the contents of the American 'soup bag' are more or less vague in her mind

Shallots, chives and chervil are but little more than names to many women Parsley and celery are familiar to most of us, but we never seem to have them when we want them most

WINDOW GARDEN

A pot of parsley and one of chives growing in the kitchen window will mean much to any woman The tender green shoots of chives minced and added to a salad impart a taste quite different from the ordinary minced onion Chives are rather stronger than onions and must be used sparingly and with discretion

A clove of garlic rubbed over the surface of the salad bowl before tossing the ingredients gives that indefinable something to the finished salad for every cook strives for the piquant that lifts the salad from the commonplace

A bit of garlic placed on a joint of mutton while roasting adds much to the flavor The garlic is removed before sending to the table

If the leaves of celery are saved when the celery is dressed for the table and later dried the cook is sure of a delicious flavoring for soups and stews

SOUP FLAVORING

The bouquet garni and soup herbs are much the same The first is a little bunch or fagot of herbs consisting of two or three sprigs of parsley a sprig of thyme and a bay leaf majoram celery leaves basil and other herbs particularly fancied

The soup bag is a collection of spices sweet herbs and seeds tied in a tiny cheesecloth bag Three cloves, six peppercorns six mustard seeds three sprigs each of dried parsley basil summer savory and thyme and one quarter teaspoon of celery seed make a good bag Since these seasonings are all dried is there any reason why every woman can't add to the savoriness of her soups and stews and sauces by the use of this extremely simple soup bag?

The judicious use of carrots and turnips add much to a soup They should be used with a sparing hand and the carrots should outnumber the turnips

DELICATE TASTES

Sage is not liked by many persons, but if used carefully it gives an elusive flavor that adds much to stuffings and sausage

The shallot is the most delicately flavored of the onion tastes While stronger in taste than the onion it does not leave the odor that is so objectionable in the common garden variety of onion

And for the use of the woman who has little room and less inclination to experiment with seasonings there are many excellent sauces and mixtures on the market that will make her soups and stews more appetizing

Just as a bit of salt is needed to bring out the best of any sweet, so a bit of sugar will bring out the flavors and juices of meats and vegetables

It should not be considered an extravagance to have a variety of seasonings on hand for a little goes a long way and makes it possible to use many foods that otherwise might be uninteresting

RHEUMATISM LEAVES YOU FOREVER

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenrhu, the sure conqueror of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenrhu has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and piteous and where the patient was helpless.

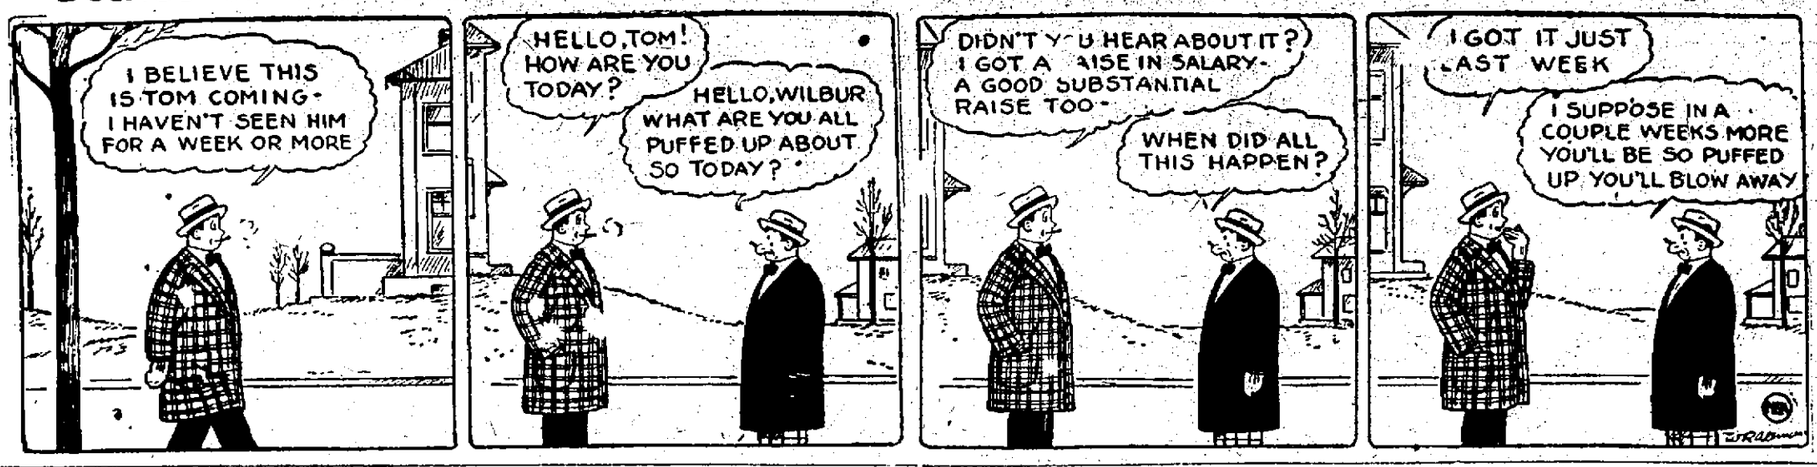

Mr. James H. Allen, the discoverer of Allenrhu, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenrhu decisively conquers this worst of all diseases, and he has instructed druggists to [illegible] it as above in every instance. ADVENTURES OF THE TWINS

By Olive Roberts Barton

NANCY RIDES A CIRCUS HORSE.

Suddenly a telegram fell right at Daddy's feet.

Well, everybody got back safely to Daddy Gander Land—all except Mother Goose, who said she would be delayed an hour or so on account of having to call on the weather man.

But even that didn't leave Daddy Gander much time for all he had to do. He hadn't expected his wife home for a week.

"My Goodness!" he exclaimed to the Twins. "It's a very good thing that we ran into her when we did. I never like to have her come home without sending me word, and that's something she doesn't always do."

Everybody knew what Daddy meant. He meant the big sign which said: "Mother Goose—Her Land," when Mother Goose was at home, but on the other side of which Daddy had printed "Daddy Gander—His Land," while she was away. And that side was always out when Mother Goose was away up in the sky. And Daddy bossed things with a high hand then.

"We'll have to turn the sign around the way it belongs," said Daddy anxiously, looking at the sky. "Mother may be back any minute."

Away went Daddy and the Twins and Tom Tinker to fix it, when suddenly a telegram fell right at Daddy's feet. The telegram read:

Daddy Gander—Mother Goose Land—Earth.

Can't get home today. Weatherman gone visiting and can't find him. Will have to stay and watch the rain-barrels so they don't splash over and spoil the circus. Best love.

MOTHER GOOSE.

"Well, well, well! I guess there's no hurry then," said Daddy Gander as he folded the telegram Mother Goose had dropped out of the sky, and stuck it in his pocket. "Come on. We can go to the circus yet. It's just about ready to begin."

The big tent was nearly full when they got there. There were the Tweedles—their faces scrubbed so they shone like milk-pans. And there were the Peterses—for since he got such a lecture on stinginess, Peter had been very generous with his wife! And the Pipers and the Daws and the Shaftoes and the Hearts and the Horners and Blues and Dumplings and everybody.

Daddy and the Twins and Tom Tinker had to sit on the lowest board, right next to the ground. But it was loads of fun. The clowns did hand-springs right in front of them, and all sorts of funny things to make them laugh. And when the monkeys came along, racing on pigs, the Twins could almost have touched them, they were so close.

But what do you think! The circus-man came up and whispered to Daddy Gander that one of the bareback riders was sick and they would have to leave off her act.

Nancy heard him.

"I have my magic shoes and I'd love to ride a horse," she declared. "Oh, please so let me."

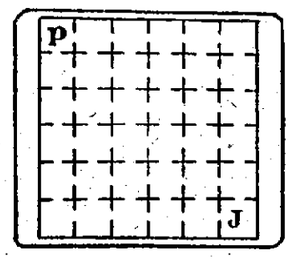

And so it happened that Nancy put on fluffy skirts and a shiny crown and rode a big white horse in the circus.

And to this day the people in Daddy Gander Land say she was the best they ever saw.

The drawing shows the plan of the prison. How did, the prisoner do it?

Household Suggestions

Clean Garbage Can

You can buy paper bags just the size of your garbage can to be used as a lining and thus save washing the can so often. If you do not have these, just a newspaper folded and made to line the can is a great labor saver.

Place for Thread.

To keep your thread in convenient shape, run a knitting across the bottom of your sewing basket and arrange the spools on that.

Zinc Containers.

Zinc cans and bath tubs take on

a very silvery appearance when cleaned with kerosene,

Spots on Ivory.

Spots on ivory ornaments or pic-

ture frames may be removed if they are rubbed with fine sandpaper or emery.

Steam Chops.

Put chops in a steamer on the stove over boiling water and let them steam for an hour before dipping in egg and crumbs and frying in the usual manner.

Polishing Stove.

A good time for blackening the stove is just after lighting the fire, for then it is neither too hot nor too cold.

SALTS FINE FOR ACHING KIDNEYS

When Back Hurts Flush Your Kidneys as You Clean Your Bowels

Most folks forget that the kidneys, like the bowels, sometimes get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region begin drinking lots of water. Also get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is intended to flush clogged kidneys and help stimulate them to activity. It also helps neutralize the acids in the urine so they no longer irritate, thus helping to relieve bladder disorders.

Jad Salts is inexpensive; makes a delightful effervescent lithia water drink which everybody should take now and then to help keep their kidneys clean.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in trying to correct kidney trouble while it is only trouble. By all means have your physician examine your kidneys at least twice a year.

SOAKS RIGHT IN AND LIMBERS UP STIFF JOINTS

Pharmacists Call It "Joint-Ease" Because It's For Swollen, Sore, Painful, Creaky Joints Only.

It took a good many years to get together a combination of pain subduing and swelling reducing agents declared to be the one remedy that almost instantly penetrates through skin and flesh and starts right in the swollen, inflammed, creaky, pain racked joints as good as new.

They call this new and wonderful preparation "Joint Ease" because the medical man who turned the trick, worked for years to perfect some low-priced remedy that would really benefit the millions of people who have one or more joints that need helpful attention.

So "Joint Ease" is prepared only for people who have a swollen, painful, creaky, distorted or stiff joint, whether it be in knee, elbow, shoulder, ankle, neck or finger and whether it is caused by rheumatism or something else.

Of course, it can't help but quickly put an end to such superficial ailments as lumbago, neuralgia, neuritis, aching muscles, stitch in the side, crick in the neck or sore feet because of its penetrating action, but what it is really recommended for is joint ailments of any nature whatever.

Ask for a tube of "Joint Ease." You can use it several times in one evening for quick results, because it goes right through the skin with only a few seconds rubbing. It surely is a swift penetrator and when it gets under the skin it starts right in to clean up all joint trouble.

Decatur Drug Co., dispenses it daily for about 60 cents a tube, as do first class druggists everywhere.

What's Best for a Bad Stomach?

Nine tenths of all stomach trouble—indigestion, sourness, gas, pain, heartburn, etc., are caused by an excess of acid in the stomach.

Artificial digestents, such as pepsin, are not needed in such cases and may do real harm. Try laying aside all digestive aids, and instead neutralize the acid that has upset your stomach with a spoonful or two tablets of pure Bisurated Magnesia, taken with a little water. This instantly sweetens the stomach and stops the pain and discomfort and your food digests as nature intended. For quick, positive relief from Acid Stomach

MOST PEOPLE PREFER
BISURATED MAGNESIA

Cotton Mill Ultimatum Does Not Change Growers

Southern Producers See Shortened Working Schedules As Move To Force Lower Prices.

BY J. C. ROYLE
(Copyright, 1924)

New York, Jan. 11.—Announcements of drastic curtailment of operations in New England cotton mills has not served, at least as yet, to alter the firm attitude of the holders of spot cotton in the South.

Many of the latter profess to see in the shortened schedules of the New England mills an attempt to force lower prices for the raw staple and declare that if the New England manufacturers feel they can afford to keep their plants idle in whole or in part, the Southern cotton holders are equally able to hang on to their bales until they get the prices they have set. For their part the mill owners in New England declare that they can not sell goods, the price of which is based on the present quotations for raw cotton and that they can not continue to make goods they can not sell.

UNTIL TRADE IMPROVES.

One of the largest Rhode Island manufacturers declared the curtailment would continue until business improved and that he looked for no such improvement for six months at least. He anticipates that more manufacturers will reduce output.

Considerable anxiety is being expressed in some sections of the south over the extreme optimism of the cotton planters and dealers. In Texas, where they had a wonderful year in 1923, farmers are in better condition financially than for several years. Most of them have not only wiped out old debts but have comfortable balances at the banks. Some careful observers are afraid there is danger they will be influenced by the present optimism regarding cotton, to obtain more land than they can well cultivate or pay for and to sacrifice feed crops and livestock production.

One careful observer maintains that a further enlargement of the Texas cotton crop in 1924 at the expense of the feed crop acreage would prove a serious and costly economic mistake since the farmers would have to sacrifice some of their cotton margin of profit to buy feed. The wet weather which has hampered grain planting also is a factor tending toward an increase of cotton acreage in the South and Southwest.

EQUALLY STRONG.

This tendency is not so marked in the Southeast, although the optimistic feeling is equally strong there. The lack of labor is a factor of importance and even if midwestern families are induced to migrate to Georgia and other Southern states, these settlers are not experienced in cotton production and naturally turn first to other crops.

The curtailments in effect today in New England are undoubtedly of great importance. Eight out of ten of the B. B. and R. Knight Company, a subsidiary of the Consolidated Textile Corporation went on a three-day-a-week schedule. The Arctic, Centerville, Grant, Nottingham, Pontiac, Royal Valley Queen and White Rock mills are other Rhode Island plants which have done likewise. Their executives claim many Rhode Island mills have been unable to sell their full production for the last four or five months.

RUN THREE DAYS.

In Maine the York Manufacturing Company of Saco, the Bates and Androscoggin mills at Lewiston and the Edwards Manufacturing company at Augusta, have most of their units on a three-day-a-week basis. The Nashua Manufacturing company of Nashua, N. H., closed today for an indefinite period and the Cocheco plant of the Pacific Mills is idle. In Massachusetts the Ipswich and Merrimac mills are running at half capacity and the Fall River print cloth mills at 55 per cent to 75 per cent while the New Bedford yarn mills are about on a similar basis.

Southern mills are still working almost full time and their executives express no anxiety about ability to sell a good sized output at a profit in spite of high cotton prices. The New England manufacturers have not indicated they attribute their situation to Southern competition although they admit lower labor costs and longer working hours give the Southern makers the advantage.

NO WAGE CUTS.

Textile experts employed by concerns with plants in both sections, however, are using every argument to induce the New Englanders to adopt methods which will reduce costs without lowering the scale of wages. They claim that by improved methods of factory practice and new and better machinery, some processes have been reduced 30 per cent in cost and that every process is capable of improvement if the operatives will cooperate with the management.

In the South, all other topics were over-shadowed today by the super power proposal regarding Muscle Shoals by the combined Southern hydro-electric power companies. Southern business-men expressed the belief that this offer would bring about a speedy disposition of the property either to Ford of the Associated interests and that this would mean the entrance of the South on a period of industrial expansion hitherto undreamed of. The possibilities of cheap fertilizers for the farmer as well as cheap electric power have long been recognized in connection with this development.

COLD STIMULATES RETAIL BUSINESS

New Orleans, Jan. 11— The severe cold wave this week has proved a wonderful stimulus to retail business in this section. Especially have blankets, heavy underwear, overcoats, men's and women's clothing and shoes experienced improvement. Department stores report their sales are running 10 to 15 percent ahead of the corresponding week of last year. Country merchants are believed to have done even better. Sales of toys since the holidays has been remarkably large.

Careful reports indicate the citrus fruits of this state, Mississippi, Alabama and Texas were struck a hard blow by the freeze. Ice appeared in the bays along the Gulf for the first time in the memory of inhabitants and Satusuma oranges and other fruit in sections north of here are reported to have been badly damaged. The orange groves south of here are believed to have been saved.

CLOTHING SALES EXTREMELY BRISK

Kansas City, Jan. 11—Despite the extremely cold weather, business in the last week in this territory has been most satisfactory in most lines. Clothing led in retail stores and reports of jobbers and wholesalers are very satisfactory for this season.

The control of the Kansas City power and light company is reported here to have passed to the Continental Gas and Electric corporation, a Delaware corporation with principal offices in Cleveland and Omaha, through the purchase of the stock of the Kansas City Power Securities Corporation. The consideration is said to have been $10,000,000.

PLAN TO REVIVE MISSOURI TRAFFIC

St. Louis, Jan. 11—Plans are now under way by the Western Barge Line for a revival of the shipping business on the Missouri river this year between St. Louis and Sioux City, Iowa.

SALMON PACKERS READY FOR RUN

Portland, Ore., Jan. 11—Columbia river salmon packers are making extensive preparations already for the opening of the coming season and Portland packers with interests in Alaska expect to operate their northern plants to full capacity during 1924. The cheaper grades of salmon, such as pinks and chums, have practically been cleaned up and there are only nominal stocks of the better grades still unsold in packers hands.

Most of these stocks consist of medium reds of the Alaska pack. There are few cases of Columbia river or Oregon stock unsold. Holders are asking $1.35 per dozen for medium reds, the price named at the opening of the season. A limited volume of Alaska reds is being held in strong hands at $2.25.

VIRGINIA INDUSTRY TO CONTINUE BRISK

Richmond, Va., Jan. 11—During the early months of 1924 there will be little or no unemployment in Virginia, save in the Tidewater sections, stated John Hopkins Hall, state commissioner of labor, today.

The building boom in Richmond, the large contracts of the American Locomotive Works and steady activity at local iron factories have contributed much to the splendid labor conditions here, he said. The dullness in the ship-building industry, he added, had played ravoc with Newport News, Norfolk and Portsmouth labor.

PLAN SHORT LINE FOR FORD PLANT

St. Paul, Jan. 11—Plans for a new railroad line into the district being built up around the new Ford Motor Company plant involve the expenditure of $1,750,000 by the Minneapolis, Northfield and Southern road, a short line which would connect the Ford factory with four main railroads.

All Fat People Should Know This

Fat people owe a debt of gratitude to the author of the now famous Marmola Prescription, and are still more indebted for the reduction of this harmless, effective obesity remedy to tablet form. Marmola Prescription Tablets can be obtained at all drug stores the world over at the reasonable price of one dollar for a box or you can secure them direct on receipt of price from the Marmola Co., 4012 Woodward Ave., Detroit, Mich. This now leaves no excuse for dieting or violent exercise for the reduction of the overfat body to normal.

BUILDING COSTS WELL SUSTAINED

Philadelphia, Jan. 11.—Prices of building materials are well sustained here. Brick plants are booked ahead to April. The volume of orders for glass is larger than at this time last year. Paints also are in better demand than a year ago and stocks are of only moderate proportions.

PILE DRIVERS BUSY.

Kansas City, Jan. 11.—Pile-drivers are forcing more than ten miles of reinforced concrete piling into the ground here to form a foundation for the new $500,000 addition to the Ford assembly plant. The piles are being manufactured on the ground and the foundation will cost about $80,000.

SWIFT SALES INCREASED.

Chicago, Jan. 11 — Louis F. Swift, president of Swift and company, has reported at the annual meeting of the company's shareholders that during 1923 sales had increased to about $750,000,000, a gain of about $100,000,000 over 1922, and that the company is now on a normal basis of operations as judged by a pre-war basis.

W. E. RECORDS FALL.

Chicago Jan. 11—All previous sales records were broken by the Western Electric company during 1923, according to a report Thursday. Billings for 1923 reached a new high total of approximately $230,000,000, compared with $211,000,000 in 1922, the best previous year.

JOURNAL GETS OUT JOB WORK

Springfield, Ill., Jan. 11.—The State Journal job department was functioning in a normal condition Thursday following the disastrous fire which Tuesday night completely destroyed the job press equipment. The newspaper was not damaged.

Through the courtesy of every job printing department of the city all unused equipment was turned over to The State Journal job department and Thursday the entire force of job pressmen of The State Journal was working in all of the other plants of the city, and work was being turned out as though the fire had not occurred.

PLAN TO LIQUIDATE SINN FEIN BONDS

Irish Authorize $6,250,000 for Purpose.

Dublin.—(AP)—Arrangements are now complete for liquidating the republican bonds that were floated to support the Sinn Fein movement resulting in the treaty, and the establishment of the Free State. The minister of finance is authorized to borrow any sum up to $6,250,000 for the purpose, and may create and issue interest bearing securities subject to such conditions as to repayment and redemption as he thinks fit.

The minister may at any time issue to every subscriber to the external loans, mostly in the United States, a stock certificate for the sum subscribed by him, but the issue of these certificates may be postponed till the minister is satisfied that all moneys subscribed and not duly accounted for have been paid over to the exchequer, and the minister may at any time redeem the stock certificates by paying their nominal amount with five percent interest or purchase the certificate at such price as the minister thinks proper.

Wall Street Prices Elevated

Industrial, Specialties Go to Higher Positions

Railway Shares Steadily Supplied and Many Issues Lose Point or More.

New York, Jan. 11—With but few exceptions prices of industrials and specialties were elevated during the active trading of the forenoon on Wall Street but railroad shares were supplied steadily, many such stocks losing a point or more. Sugars, chemicals, and oils were the strongest groups with considerable activity in various low priced specialties, the action of the latter suggesting pool operations.

American Bank Note moved up four points and Commercial Solvent B, Tidewater Oil, Sears Roebuck and Case Treshing Machine preferred 2 to 2½ points each.

Call money opened at 4½ percent.

PROFIT TAKING.

Strength of the general list was used to cover heavy profit-taking in the low priced rails, New Haven and Missouri Pacific preferred each dropping a point.

Oils were strong, Houston and Marland rising 1 to 1¾. Goodyear preferred and Willys Overland preferred advanced a point or more while American Express and Tobacco Products were heavy.

Foreign exchange opened lower, francs establishing another new low record at 4.81 cents.

OPENING FIRM.

Stock prices displayed a firm tone at the opening of today's market, buying being influenced by the decision of the house republican caucus to take early action on the tax reduction bill.

The advance spread abroad over the list with Baldwin, Davison Chemical and General Electric rising a point or more in the first few minutes of trading.

The close was firm.

COMING EVENTS.

Chicago, Jan. 11—Coming Events says: Bearing in mind that the long pull continues distinctly upward we would refrain from making new constructive commitments in issues which had recently forged ahead with marked rapidity until impending technical readjustments have been accomplished. In such low priced issues as Overland common and certain of the rail group we favor adding to holdings on favorable opportunities. Bethlehem Steel, U. S. Steel, Gulf States and RBC are sound purchases on recessions.

WHEAT ENJOYS STEADY CLOSE

Profit Taking Sales Feature; Corn Feels Bearish Touch.

Chicago, Jan. 11 — With foreign prices for grain continuing to advance and making values in the United States closer to a world parity, wheat bulls here had an advantage at the opening of today's market. It was pointed out that Liverpool quotations had gained rapidly on Chicago since the beginning of the year.

Opening strength in corn tended to firm wheat. After starting ⅛ to ⅝c higher May $1.09⅛@¼ and July $1.07⅜@½, wheat reacted a trifle, but held to the initial range.

Subsequently profit taking sales were a feature. The close was steady at the same as yesterday's finish to ⅛c higher May $1.08⅞@1.09 and July $1.07⅜.

CORN IS SETBACK.

In view of the fact that but little corn was being offered to arrive and that receipts were small for this time of the year, the corn market opened with an upward tendency. On the advance however, speculative selling developed and led to a setback. The opening which varied from unchanged to ⅜c higher May 77⅜@½ was followed by moderate declines.

Better weather conditions had a slight bearish effect. The close was steady at same as yesterday's finish to ¼c lower May 77@¼.

Oats took their cue from wheat rather than corn. Starting unchanged to ⅛c higher May 46⅛@¼ the oats market continued firm.

Provisions lacked support.

WHEAT EMBARGO.

Winnipeg, Jan. 11—An embargo on Ft. William and Port Arthur is expected some time next week. There is said to be 50,000,000 bushels Canadian wheat at lower Lake ports, 40,000,000 at Ft. William and Port Arthur and 45,000,000 in country elevators, with 100,000,000 still on the farms. Lower lake terminals are crowded to capacity and all rail shipments, it is said, will have to be stopped. While upper lake ports have a capacity of 63,000,000 bushels they cannot take more than 60 per cent. It is figured Canada will have to export 2,000,000 bushels of grain per day from the opening of navigation to get free of this crop before the opening of the new grain year, Sept. 1 next.

JOURNAL OF COMMERCE.

Chicago, Jan. 11—Journal of Commerce says: Higher prices for wheat are confidently expected. Small receipts of wheat at primary markets and diminishing stocks at Minneapolis are strengthening the belief that the supply east of Rockies is much less than generally believed. The visible supply next Monday is expected to show a decrease and if this is repeated many times a general switch to the bull side is inevitable. Sentiment in corn is bullish. While there has been considerable profit taking sellers will reinstate their lines on small setbacks.

JOLLY SALE.

Ernest Jolly hald a sale on the farm on which he lives, southeast of Tuscola, Wednesday. Mr. Jolly was selling off a surplus of live stock, and also sold a few implements. CORN CANNERY ASSURED.

The location of a sweet corn canning plant in Tuscola the coming year now seems to be assured. It has been reported by the committee sent out to solicit the acreage of sweet corn production by farmers that the subscriptions have gone over the top. The committee from the Chamber of Commerce, sent out to secure the necessary pledges of assistance to purchase the site, has met with a measure of success that leaves no doubt but what the total amount will be forth coming. The promoters of the industry, headed by H. M. Crites of Circleville, O., said to be one of the most extensive packers of sweet corn in the world, asked only the furnishing of a site for his plant, and a pledge of enough acreage to keep it running the first year knowing that the acreage would take care of itself after that.

The Douglas circuit court will be reconvened on next Monday morning, Jan. 14, for the hearing of a number of chancery cases.

Building a Hoosac Tunnel Every Day

Fifty years ago—after the struggles, disappointments, hopes and achievements of a quarter century—after an appaling loss of life and the expenditure of millions of dollars—the greatest engineering feat ever attempted on the western hemisphere was completed. A tunnel had been bored through the solid rock base of the Hoosac Mountain in Massachusetts.

But the opportunities for freight and passenger communication between the East and the West which this famous "short cut" opened up, made it well worth the enormous price exacted.

Today The Review completes another equally famous "short cut" to Opportunity—completes one every single day, in fact. These are the short cuts that lead through the opportunity offers of the A-B-C Classified Sections.

Don't waste your strength climbing a mountain of difficulties. Go straight through these accurately indexed and perfectly catalogued offers that bring you immediately to Opportunity.

SORORITIES LEAD IN SCHOLARSHIP

Pi Beta Phi and T. K. E. Head Greek Letters.

ON LAST YEAR'S WORK

Final High Honor Awards Announced.

Pi Beta Phi Sorority and Tau Kappa Epsilon fraternity lead the Greek letter organizations in comparative scholastic standings again this year, according to official announcements given out by the Registrar of the James Millikin University Friday morning during the chapel period. The announcements of the scholastic standings and of the preliminary honors were made by Dean A. T. Wald. It was found that all sororities lead the fraternities in standings. The comparative scholastic ratings are as follows, with the grade averages beside each:

SORORITIES.

Pi Beta Phi—2.617.
Alpha Chi Omega—2.523.
Theta Gamma—2.500.
Delta Delta Delta—2.493.
Zeta Tau Alpha—2.027.

FRATERNITIES.

Tau Kappa Epsilon—2.212.
Pai Lambda Chi—2.160.
Sigma Alpha Epsilon—2.061.
Delta Sigma Phi—1.964.
Kappa Delta Chi—1.857.

The average of all sororities was 2.353 while that of all fraternities was 2.021. The average of sororities and fraternities together is 2.378. The average for non-sorority women was 2.455 and of non fraternity men is 1.946. Non-sorority women and non-fraternity men together had an average of 2.142. The average of all women of the school was 2.404 while that of all men was 1.968. The average of all students of the University was 2.250.

ON LAST YEARS WORK.

All of the above figures are, of course, taken from the scholastic work done last year. Final honors for the high honor students of the school, in the senior class were awarded at commencement last year, the award being made by the faculty council. The following members of the graduating class of 1923 were elected to the high honor rank: Ida Josephine Baker, Helen Ingersoll, Helen May Regan, Florence Bernice Torman and Theodore Dale Yoder. These five seniors attained high honor for their entire collegiate course and were admitted into the Kappa Society, the graduate High Honor organization of the University, and were presented with its emblem, the gold key.

The following seniors were designated as Honor students: Esther Margaret Biggs, Mildred Louise Burstrom, Dorothy Jane Davis, Thelma Arline Deetz, Jane Elenor Welty, Helen Ambuo Hayes, Walter Glenn Mitchell, Helen Grace Parkinson, Leitha Marjorie Schroll and Honora Vernell Whalen.

PRELIMINARY HONORS.

Preliminary honors are awarded by the various schools of the College to qualifying members in each of their Junior, Sophomore and Freshman classes. The upper fourth of the Juniors on each school, the upper sixth of the Sophomores, and the upper tenth of the Freshmen receive this distinction, provided that they have a general average of 2. Relative standings are determined by assigning to the grades the values as follows: A, 4; B, 3; C, 2; D, 1; E, Condition, 0; F, Failure.—1. Each grade is weighed by the number of credit hours which the course carries. For such recognition in any year, the student must have earned a minimum of seventy-four credits. In 1923 the following students qualified for honors. Their names are given in the order in which they ranked in their respective schools:

WRITES NOTE TO MRS. HARDING

Helen Marie Spayd Puts Wreath On Former President's Tomb.

Recently when the company with which they were traveling was at Marion, O., Mrs. Harry Spayd and her daughters, Helen Marie and Alice Virginia, took part in the ceremony of placing a wreath on the tomb of President Harding.

Miss Helen Marie Spayd placed the wreath and wrote the note to Mrs. Harding which was attached to the wreath, this being the custom of those placing these wreaths at the tomb of the dead president.

PRISONERS ESCAPE FROM OFFICERS

John L. Poole and Clement Traylor Get Away.

John L. Poole and Clement Traylor escaped from the officers taking them to the clinic at the Decatur and Macon County hospital Friday morning and police and sheriff's officers have been scouring the county all day in the hope of recapturing them. Both are young men. Poole wears a stiff hat and Traylor wears a cap. Neither of them had on an overcoat when they escaped.

Deputies Cooper and Jennings had taken three prisoners to the clinic for treatment. Poole and Traylor jumped out of a window in the toilet room at the hospital and ran away. They soon disappeared, but the officers expect to locate them. Neither having on an overcoat, they will have to seek shelter somewhere. Two letters came for Poole Friday, but he had gone before the mail man brought the letters to the jail.

Poole was arrested in Effingham a few days ago for stealing a car from the Bender company in Decatur.

Traylor is the man arrested a few days ago for peddling cigarets by the carton. The police believe the cigarets were stolen.

Decatur

Make a School Survey.

Peoria's public school head is proposing to the board of that city that a survey of the situation be made.

Peoria, like all growing cities of the middle west, just as Decatur, is facing a building program in its schools.

The school population there, as in Decatur, has outgrown the school housing facilities.

Peoria is facing a long time building program for its schools.

So is Decatur. Peoria proposes to study its present and probable future condition with scientific thoroughness. Decatur should do the same. It will tend to obviate mistakes.

Such a survey, made years ago, would have shown that the Mary W. French school is in the wrong spot. So is the Gastman school.

Both are too small units for modern school work anyway. Supervision and janitor control over a twenty-four room building are not much more expensive than over an eight room building such as the Mary W. French.

The Oakland school and the French school should have been combined at some location possibly midway between the present buildings.

The French school is too near the east line of its district. Between that school building and the business section there will soon be more boarding houses and apartment buildings than homes.

Children are not numerous in such districts.

They will become less. As time goes on the French school will be in a district where there are very few children.

It is not necessary, it is not desirable, that school buildings should be numerous.

A walk of five, eight, even ten blocks to school is more likely to be a benefit to children than an injury. They need the out of doors in these days of small yards, over-heated houses, books and movies.

A survey of the Decatur of today with a study of the probable Decatur of tomorrow should be made by the Decatur school board as it plans for the building expansion which is now within sight.

Larger buildings, greater educational units, more widely separated than the standard size school of the Decatur system as it now exists will almost certainly be the result of such a survey.

We have a city plan, we are working on a plan for railroad crossing elimination, we are having a survey of the sewer system made for present and future use.

A survey for the development of the schools, a definite plan toward which to work as the years pass and the school population increases, would tend toward educational efficiency and, in the long run, economy of operation and maintenance.

Such a scientific survey would be a wise investment by the board of education.

It should have a school plan

10 DAY SCHOOL COURSE ON SAFETY

Prepare Primer for First Two Grades.

LESSON EACH DAY

Whistles to Announce Schools Out.

A ten days course of study on the subject of safety in every school in the city will be opened safety week, Jan. 27-Feb. 2.

This was announced by Superintendent J. J. Richeson at the meeting of the safety education week committee Friday noon at the Decatur club.

PREPARE PRIMER.

Public schools are preparing a primer for the first two grades. This will be sent to all first and second grades. All the other rooms will be asked to get up their own best books. A sample lesson in the primer reads as follows:

"The Driver.

"The man in the automobile is the driver.

"The driver must be very careful.

"If he is not careful he may hit some boy or girl.

"He might hit a man or a woman.

"Any good driver would be so sorry if he hit any one."

LESSON EACH DAY.

In every room there will be a lesson every day.

During the week each child will be given a pledge card to take home, asking the parents to sign and return, promising co-operation during the week in safety education week.

All children that bring back signed pledges will be given stickers to take home and put on automobiles or in windows and during the week there will be a safety exhibit at the high school at which various photographs, displays, posters and slogans will be shown. Preparations for this are already under way in art classes of the school. These classes also are making about 150 artistic and handsome posters that will be displayed in windows.

TO BLOW WHISTLES.

All the factories in town will be asked to blow their whistles at 12 o'clock and 5:30 o'clock, the hours that school is dismissed, to remind auto drivers to drive more carefully while children are in the streets.

Four thousand posters have been ordered to be posted in the windows and on walls, street cars, factories and wherever they can be put up. Four signs for the transfer house and eight for entrances to the city are being painted and will be put up that week on which will be the words "Safety Education Week—Drive Carefully."

IN CHURCHES.

Ministers have been asked to preach at least one sermon on safety on the 27th. Safety films will be shown in the theaters.

Display of news clippings reporting accidents will be shown at various places about the city.

A committee to organize a permanent safety council was appointed as follows: Mayor Elmer Elder, M. L. Harry, M. C. Nelson, W. F. Hardy and Lewis Shade.

SPEED TRAP AT MOMENCE, ILL.

No Signs but All Autos Must Stop.

The Decatur Motor club has received a letter from the manager-secretary of the Vermilion County club in Danville, telling of the speed trap in Momence, Ill., and warning motorists about it. There is no stop sign or even a "boulevard sign" so that motorists are absolutely unaware that there is a speed trap. A full stop is required and the rate of speed which the car is going does not matter.

Twenty-six arrests were made Sunday and twenty-seven arrests were made on Monday. All paid fines of $8.40 each. The trap is apparently for strangers only, as the residents are not molested at all. Two policemen are kept on duty to arrest the travelers. The trap is at the crossing of Main street and route one.

MUCH STONE HERE FOR RIP-RAPPING

Shipped Faster Than It Can Be Placed By Workmen.

So many carloads of one man stone have been received by the Decatur Water Supply Co., recently that the amount on hand has reached the dimensions of a fair sized hill.

This is the stone that is being used for riprap purposes. Much of it has already been placed but recently the quarry has been sending so many carloads that the workmen of the water company have been busy unloading the cars.

The stone is received over the C. I. & W. railroad and is unloaded on the spur track which the Water company has built near the Nelson park bridge.

Bakery Sale.

Group two of Westminster Presbyterian church will have a bakery sale Saturday in a vacant building on the south side of East Prairie just off Water street. Besides bakery goods, dressed chickens, cottage cheese, and whipping cream will be on sale.

63 Degrees Range In Temperature

Week Has Also Had Sun, Rain and Snow.

Rain, snow, fifty-four above eighteen below or what have you?

Take your choice of weather and Decatur can furnish it, or has displayed the ability to do it during the last seven days. The trans-continental tourist marvels at the novelty of passing from snow-capped peaks into flower studded fields, but Decatur stays at home and alternately stokes the furnace or raises the windows while experiencing the same sensations.

Fairly reasonable temperature pervailed last Friday with a high mark of nineteen above and then a drop to nine above. On Saturday the mercurial avalanche in Decatur thermometers landed the indicator at eighteen below. Sunday saw a lift to twenty-four above, on Monday there was a variation of twenty-nine degree between a high mark of forty-four above and a low of fifteen above.

UP TO 54 DEGREES.

Then the mercury began to climb. It reached fifty-four above on Tuesday and for variation, it clouded up. Fifty-one was high on Wednesday with the freezing point and the low mark and for further variation, it rained. Thursday it rained some more with a high mark of forty-five above and then, about nine o'clock in the evening it started to snow and Friday morning dawned on a white-covered city.

The sudden change was hard on Decatur traffic, particularly on the horses. Automobiles skidded about Friday morning on the ice sheathed pavements, but horses were unable to navigate at all under a load. Downtown curbs were dotted with wagons from which the horses had been unhitched and led stumbling away while trucks pulled the wagons to their destinations.

I. C. TRAINS GO THROUGH DECATUR

Detoured from Litchfield to Clinton.

The Illinois Central was using the Wabash for detouring purposes Thursday night and Friday morning, at least that part of the Wabash between Decatur and Litchfield, it was all due to a big freight pileup on the I. C. near Farmersville about twenty-six miles south of Springfield about 10 o'clock Thursday night.

The I. C. trains left their regular course at Clinton, came south on their own lines to Decatur and then via Wabash to Litchfield or by the reverse route although some of the trains, it was planned, would be turned from the Wabash at Taylorville and sent over the B. and O. to Springfield. Some of these trains were still due to be detoured about noon Friday. The wreck was said to consist of about fourteen freight cars, four of wheat, three of cinders and the other seven empties.

W. WILKERSON BECOMES BANKER

Vice-president of Negro Institution.

In the Jan. 6 issue of the Memphis Commercial Appeal there appears a notice of the formal opening of the Paternal Savings Bank and Trust Co., in a new building erected especially for the bank.

This is the bank owned and managed by negroes in which Wayman Wilkerson, formerly a negro deputy sheriff in Decatur, is one of the vice presidents.

The bank is one of the most prosperous of its kind in the country with a capital stock of $25,000 and assets of $475,000. It is conducted wholly by members of the colored race and the new bank building was designed by a negro architect. The new building cost $44,000.

Model Ordinance to Be Presented at Elgin Meeting.

A meeting of the Uniform Traffic League has been called for Jan. 23 at Elgin for the adoption, rejection or modification of the proposed uniform traffic ordinance which has been drawn up by a sub-committee of which Mayor Elmer Elder of Decatur was chairman and of which Judge R. E. Chanin, of Springfield, and Mayor E. E. Crabtree, of Jacksonville, were members.

Heber Hudson, secretary of the Bloomington Association of Commerce and also secretary of the league, has sent out notices for the meeting at which it is expected that the ordinance will be adopted.

DECLARE DAMAGES DUE COMPANY

Pan American Co. Decision Received Here.

Copies of the decision of the appellate court in the case of the Herschel-Spillman company against the Pan-American company were received in Decatur Friday. In reversing and remanding the case with instructions, the court says that the evidence indicated that there were substantial damages, and the instructions were that further testimony should be taken, if necessary, and to compute the actual damages.

The master in chancery only allowed the complaining company $10 damages.

WABASH VETERANS PLAN REUNION

Committee Meeting to Be Held Soon.

MAY BE HELD ON LAKE

Date Will Be Sometime in June.

With the holiday season out of the way, the executive committee of the Wabash Veterans' Association which held its first session here last May, will be called together by President John Knowlton to arrange for the second annual reunion this next summer.

The committee, which is composed of the officers, includes Mr. Knowlton, Arthur Robinson, J. E. Stumpf, William Donovan and Eugene Head. The meeting will be some time this month. The only thing definitely settled at this time about the month is that it will be in June, when the weather is apt to be more settled and agreeable than in May and it will be in Decatur. The exact date and location are unsettled. However, it has been proposed to have it at the R. R. Y. M. C. A. camp grounds, which is Wabash property on the west shore of Lake Decatur and a pretty and wooded tract.

New Assignments.

On account of several extra engineers bidding in regular jobs on the new assignment of Wabash 9th and 13th districts Thursday, three more promoted firemen were set up to the extra engineer's board. This included McCullough, Morrisey and Durbin. Because of these changes, all firemen jobs on both passenger and freight are again open for bids up to Jan. 15 and so also is the first trick main line hostler job in place of Durbin.

Because of quite a number of regular men being off and some engineers being necessary to pilot Illinois Central trains down on the south end, the extra board of engineers was exhausted Thursday night and Merritt, H. Jones, D. Adams, Winter and Housh were all called upon to work as engineers. The first two named were used as pilots.

Railroad Notes.

Tom Owens, Wabash passenger engineer, who was severely scalded by steam from his engine at Litchfield during the middle of December, has now fully recovered and expects to return to work not later than next Monday.

Extra Engineer Durbin of the Wabash has marked off the board on account of sickness and Fireman Hanson, who has been off and in the hospital on account of sickness, expected to mark up for service Friday.

Forty-seven carloads of grain, enough to make a solid train of that stuff, came into Decatur in Wabash trains Thursday. Thirty-three cars of this was corn.

Wabash engines Nos. 2415 and 2429 are being transferred from the Peru to the Springfield division but the Decatur division has received permission to use these engines here for a time until the congestion on this division is cleared up.

Goff Williams of the Wabash clerical forces has been assigned to the position as invoice clerk in the main store room.

A Wabash shopman named Bouch was hurried to the hospital early last Wednesday morning from his home in Cerro Gordo and underwent an emergency operation for appendicitis. He was reported as getting along all right Friday.

PUSH STOCK SALE OF CO-OP DAIRY

Headquarters of Farm Bureau Until Organized.

A meeting of the directors of the Producers Cooperative Dairy was held Thursday afternoon to make plans for completing the organization. The first and most important task ahead of the organization is the sale of $15,000 of common stock and $85,000 of preferred stock. Under the state cooperative law the association can be organized in advance of the sale of the stock as an ordinary corporation can not do.

The common stock can be sold to producers who can purchase only a limited amount. The preferred stock can be purchased by any one but it is expected that it will be bought mainly by dairymen. The sale of the stock will take both time and organization effort and that is what the board of directors is now planning for.

The headquarters of the Producers Co-operative Dairy will be at the farm bureau until the organization has been completed. After that the association will secure an office of its own. Part of the plan is to build or purchase a milk depot and distribute the milk of the members of the association. The executive committee says it is not an increase in price which the organization is seeking but a decrease in marketing costs.

HOT LUNCHES IN SCHOOLS URGED

Mrs. Mary Mose Addresses Mound Unit of Home Bureau.

Mrs. Mary Mose was the speaker before the Mound unit of the Home Bureau in a meeting it held in the Y. W. C. A. in Decatur Thursday afternoon. Mrs. Mose who has done a great deal of work in examining the school children over the county and is one of the visiting nurses, put much stress on the need for hot lunches in the school room. A lively discussion followed her talk, as there was a division of opinion in regard to the necessity for the hot lunch.

Following this talk a report on the recent food school was given by members of the unit.

Decatur Lettuce Now on Market

C. H. Maynard Operates Two Green Houses.

Very fine home grown greenhouse leaf lettuce is being supplied to the Decatur markets just now by C. H. Maynard, who lives on the Boiling Springs road. The lettuce is an excellent color and crisp and very fine.

Mr. Maynard says that he has two greenhouses in which he grows leaf lettuce for market, but that the crop has been delayed this year by the fact that the weather has been unusually dark and cloudy which has interfered with the development of the vegetable. Ordinarily he says it takes just seven weeks to produce this lettuce ready for the market but in the dead of winter, particularly if there are many dark days, it runs up to twelve weeks.

TWO GREEN HOUSES.

He has two green houses, one is 110 feet by 25 feet and the other is 163 feet by 25 feet. From this he is just now supplying twelve or fourteen stores in this city.

He supplied Decatur markets with fresh home grown lettuce during the fall, but for about three weeks he has been unable to do so because of the dark days which interfered with the development of the crop. In the spring he frequently raises tomatoes and cucumbers in his greenhouses which he also sells on the market long before home grown cucumbers can usually be expected.

GIRLS' CONFERENCE TO OPEN TONIGHT

Other Cities Represented At Y. W. Meet.

In newly decorated rooms which are especially pretty the Girl Reserves winter conference will open Friday evening in the Decatur Y. W. C. A. The opening hour has been set for 7 o'clock when there will be music followed by prayer and a welcome extended by Mrs. Guy P. Lewis, local board president, and Mrs. A. T. Mills, local chairman of the Girls' Work committee.

The first arrivals for the conference were expected in at 1 o'clock, coming from Quincy, and those from East St. Louis are expected to be the last ones in arriving at 8 o'clock.

CITIES REPRESENTED.

The following cities have sent in the number of girls who may be expected:

These numbers show an unusual amount of interest in the mid-winter meeting since the first quota sent out was for three girls, the secretary and an adviser. Promptly the Y. W. C. A.'s began to write in from the various cities asking for a larger quota and Bloomington indicated that she wanted a much larger one by asking to be allowed to send seventeen, which will be the largest number. These girls will be met at the trains and taken to their rooming places.

EXPECT 150.

The number of girls sent as the quota from each city does not represent the number expected in attendance, for fully 150 are expected to attend from these cities and Decatur. Some have indicated that they will stay with friends and are not asking the association to find them rooming places.

The programs were sent out in envelopes on which were written a number of suggestions for the conference and explanations of the plans.

BOOK TABLE.

A book table is to be on exhibit during the conference containing club programs, games and recreations suitable for Y. W. C. A. use, and suggestions for advisers. Miss Helen Krumsiek will have this table in charge.

COMMITTEES BUSY.

There has been considerable hurry to get the building ready for the conference and the committees have done fine work getting everything in readiness. The program is the work of Miss Alice Brown and her committee and it is very complete, containing even the menu for the banquet which is to be held Saturday night. Miss Charlotte Musser is chairman of the hospitality committee and this committee will meet the girls at the trains and escort them to their rooms.

The registrar will be Mrs. Zeldra Ehrhart. Miss Eunice Baldwin has charge of the banquet and Miss Jo Higman of the recreation during the conference. Miss Pauline Stewart is chairman of the conference, while Miss Florence Hartman will serve as toastmistress for the banquet.

Report Roads in Poor Condition

Impassable in and Out of Clinton.

The roads are none too good since Thursday's mud was congealed but for the most part they are usable. A man who drove from Taylorville to Decatur Friday morning said that he found the road somewhat rough in places but he had no difficulty at all. The D. T. S. trail east of Decatur is reported as quite good. The Bloomington road north of Clinton seems to be off the map for the season. No definite information can be had of this road and this is one case where no news is not good news.

The only word from the Salt creek impasse between Maroa and Clinton is that it isn't yet finished. A Maroa man says that they are laying the stringers for the iron span of the bridge. The detour east from Craig is not recommended and the detour east from Maroa to the Green's Switch road is still being used.

The subway gap in Maroa is not good and before the present freeze cars were stalling in it. There is really no excuse for using it if one is going as far north as Clinton.

Mr. Armstrong will look after the affairs of the company for ten days or two weeks until the business has been straightened out.

All parties interested have agreed to this arrangement and Mr. Armstrong says an effort will be made to improve the service, the interruption of which has been an inconvenience to the residents of the southwest section of the city.

ALL STOCK SOLD IN LINCOLN SQUARE

Decatur Men Dispose of Holdings.

TO MID-WEST CORP.

Organized Five Years Ago to Run Theater.

All remaining Decatur stockholders of the Decatur Theater corporation, organized originally to manage the Lincoln Square theater, Thursday sold out the interest still held by the dozen or so who were yet in the company.

The buyers were the members of the Mid-west Theater corporation which took over the majority control of the stock of the Decatur company several months ago and the deal was closed by W. N. Van Matre, of Rockford, who was in Decatur Wednesday and Thursday.

HERE FOR FIVE YEARS.

The Decatur Theater corporation was organized about five years ago and it brought Rex Lawhead to Decatur as manager for the house.

Some months ago the majority interest in the corporation was secured by the Rockford interests and Harry Grampp was made manager for the two houses which the concern controlled in Decatur—the Lincoln Square and the Avon.

Recently Mr. Grampp sold his interest in the controlling corporation and Harry Wallace was made manager, about a dozen Decatur stockholders still being interested in the Lincoln Square.

ONE FOURTH INTEREST.

These stockholders held about a one fourth interest and this was bought in Thursday under an agreement with Mr. Van Matre for $160 a share.

Among the stockholders who sold their interests were C. H. Pierce, W. C. Starr, Harry L. Spayd, Charles Starr, Roy Eshelman, Robert Mustler, Arthur Walt, F. M. Lindsay, Fae Walt and the Mallcos estate.
